A Network of Over a Half Billion Monthly Active Users, with 42 Billion* Hours of Annual Entertainment Across Franchises

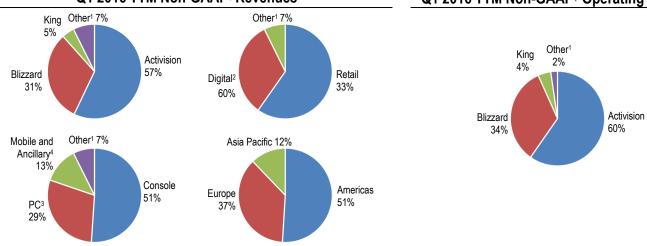

*Includes King for full period. ** NPD. *** U.S. ranking for Apple App Store and Google Play Store, per App Annie Intelligence for first quarter 2016. † For a full reconciliation of GAAP to non-GAAP numbers and for more detailed information concerning the Company's financial results for the quarter ended March 31, 2016, please refer to the tables attached to Company's earnings release dated May 5, 2016, which is available on our website, www.activisionblizzard.com. † Our outlook is based on assumptions about sell-through rates for our products and the launch timing, success and pricing of our salte of new products, all of which are subject to significant risks and uncertainties, including possible declines in the overall demand for video games and in the demand for our products, the dependence in the interactive software industry and by us on an increasingly limited number of popular franchises for a disproportionately high percentage of revenues and profits, our ability to predict shifts in consumer preferences among genres and competition. Our outlook is also subject to other risks and uncertainties including financial results from the acquisition of King Digital Entertainment, litigation and associated costs, fluctuations in foreign exchange and tax rates, counterparty risks relating to customers, financing providers, licensees, licensors and manufacturers. As a result of these and other factors (including those mentioned in our most recent Annual Report on Form 10-K and our other filings with the SEC) actual results may deviate materially from the outlook presented above.
