SANTA MONICA, Calif.--(BUSINESS WIRE)-- **Call of Duty®: Advanced Warfare Havoc**, the first DLC pack of the top-selling console video game in the world in 2014, based on physical game unit sell-through data from NPD and Gfk, is available now, first on the Xbox Live online entertainment network from Microsoft for Xbox One and Xbox 360. Delivering a new level of DLC value, **Call of Duty: Advanced Warfare Havoc** includes four new, epic multiplayer maps, access to the versatile AE4 directed energy assault rifle, the AE4 Widowmaker custom variant, plus an exciting all-new zombies cooperative mode called Exo Zombies.

**Havoc's** four new, exotic and diverse multiplayer maps are set around the globe and are tailor-made for players to unleash their exoskeleton's abilities:

- **Core:** Deploy to the Gobi desert where the ravaged ruins of a nuclear fusion plant set the stage for a high-octane warzone. Take down enemies through the wreckage in long-range combat or get up-close and personal in the tunnels surrounding the central turbine. Activate decontamination drones using the map-based scorestreak to help clean out the competition.
- **Urban:** Prepare yourself for brutal, high-speed combat in Dallas Ward 3, a future mega structure, funneling players into a close-quarters free-for-all. This modular compound's verticality unleashes the exoskeleton's capabilities. Stay focused during the timed event as blast doors alter the map's flow and sightlines.
- **Sideshow:** In the shadow of Devil's Tower, Wyoming, this abandoned inn's open layout amplifies its creep factor. Blast your way through the clown inn with close-quarters battles or use long-range site-lines from the mining facilities and natural terrain. Use the map-based scorestreak to activate the lights, music, and magic of the clown marquee and rain down a barrage of rainbow smoke-trailed cannonballs.
- **Drift:** An idyllic ski resort high in the Rocky Mountains is transformed into a festive high-altitude playground, perfect for an all-out firefight. Make your way to the highly contested over watch in the glass observation deck or take a ride on the carousel to deliver 360 degrees of carnage. Players can use the map-altering timed event to their advantage as an avalanche of snow and debris disorients players, intensifying the battle.

**Havoc** includes a new cooperative experience, Exo Zombies. Featuring a story told through the eyes of four employees of the Atlas corporation and played by a celebrity cast consisting of John Malkovich (*In the Line of Fire*, *RED*, *Burn After Reading*), Bill Paxton (*Aliens*, *Titanic*, *Edge of Tomorrow*), Rose McGowan (*Planet Terror*, *Scream*), and Jon Bernthal (*Fury*, *The Wolf of Wall Street*), Exo Zombies ushers in a new breed of zombies and a truly unique experience, all included first in the **Havoc** DLC Pack. The actors provide their voice over and likeness in a dark and cinematic adventure new to **Call of Duty: Advanced Warfare**. These four performers help enlist players into a world where a DNA bioweapon unexpectedly spawns a bloodthirsty, ravenous mutant horde infecting a secret Atlas research facility and sending personnel running for their lives. Following a failed evacuation, four survivors, un-trained and underprepared, must face the most vicious mutations ever unleashed.

**Call of Duty: Advanced Warfare Havoc** is available now, first, exclusively on Xbox Live for Xbox One, the all-in-one games and entertainment system from Microsoft and Xbox 360 games and entertainment system from Microsoft for a suggested retail price of \$14.99. The **Havoc** DLC Pack is also included in the **Call of Duty: Advanced Warfare** DLC Season Pass\*, where fans can purchase all four epic DLC Packs planned for the year, as part of the discounted bundle offered at a suggested retail price of \$49.99 - a discount of \$10 off the individual purchase of all four DLC Map Packs\*\*.
