

## Preorder Reaper of Souls™ Today and Face Death on March 25

*Take up the righteous cause of the Crusader and chart your own epic course through Sanctuary in the upcoming expansion to Diablo® III*

IRVINE, Calif.--(BUSINESS WIRE)-- On March 25, the crusade against death itself begins when *Diablo® III: Reaper of Souls™* charges forth to challenge Windows® and Mac® gamers around the world. Brave heroes willing to answer the call to action can prepare for the Angel of Death's forthcoming onslaught by prepurchasing the expansion digitally at <http://www.diablo3.com/reaper> starting today.

In *Reaper of Souls*, the five original heroes from *Diablo III*—Barbarian, Demon Hunter, Monk, Witch Doctor, and Wizard—are joined by a new champion: the Crusader. Clad head to toe in battle-scarred armor, the Crusader is an unstoppable force of righteous destruction who channels the power of divine wrath to visit retribution upon his demonic quarry.

Players will embark on a dark and perilous journey across a challenging new act, venturing through terrifying landscapes; visiting the legendary city of Westmarch; and slaying countless minions, each hell-bent on bringing their quest to a grisly end. The adventure culminates in a climactic confrontation with Malthael, the fallen Archangel of Wisdom, an otherworldly entity of unfathomable power whose twisted designs spell ruin for the innocent people of Sanctuary.

"With *Reaper of Souls*, we're taking *Diablo III* back to its darker, deadlier roots and also giving players a new way to experience the game," said Mike Morhaime, CEO and cofounder of Blizzard Entertainment. "In addition to adding a new character class, a new act, and tons of fully randomized new content, we're opening up the world so players are free to explore the game as they see fit, whether it's following along with the story line or charting their own course across Sanctuary."

Prior to the launch of *Reaper of Souls*, a free update to *Diablo III* on Windows and Mac will bring a host of new game features, including a major revamp of the game's loot system; an expanded Paragon progression system for max-level characters; and expanded social tools in the form of Clans and Communities. When *Reaper of Souls* is released on March 25, it will introduce an array of game-changing features and highly replayable content for *Diablo III* players who purchase the expansion, including:

- Act V: A dark and terrifying chapter sending players on a final confrontation with death itself
- The Crusader: A new playable hero—a veritable war machine made human
- Level Cap to 70: Formidable new spells and abilities that take players to new heights of power
- Adventure Mode: A new game mode that gives players the freedom to go anywhere and slay anything
- Bounties: Randomized objectives that reward players in new ways for exploring Sanctuary
- Nephalem Rifts: Fully randomized dungeons offering endless replayability and heaps of loot
- The Mystic: A powerful new artisan who provides heroes with loot-customization options

All of this new content comes with the *Reaper of Souls* Standard Edition (available in physical and digital versions), which players can prepurchase at a suggested retail price of \$39.99. Players also have the option to upgrade their prepurchase to
