1. Background and basis of presentation

Business

Activision Blizzard, Inc. is a worldwide pure-play online, personal computer (“PC”), console and hand-held game publisher. The terms “Activision Blizzard,” the “Company,” “we,” “us,” and “our” are used to refer collectively to Activision Blizzard, Inc. and its subsidiaries. Based upon our organizational structure, we operate four operating segments as follows:

Activision Publishing, Inc.

Activision Publishing, Inc. (“Activision”) is a leading international publisher of interactive software products and peripherals. Activision develops and publishes video games on various consoles, hand-held platforms and the PC platform through internally developed franchises and license agreements. Activision currently offers games that operate on the Sony Computer Entertainment (“Sony”) PlayStation 2 (“PS2”), Sony PlayStation 3 (“PS3”), Nintendo Co. Ltd. (“Nintendo”) Wii (“Wii”), and Microsoft Corporation (“Microsoft”) Xbox 360 (“Xbox 360”) console systems; the Sony PlayStation Portable (“PSP”) and Nintendo Dual Screen (“NDS”) hand-held devices; the PC; and the new hand-held game system Nintendo DSi. Our Activision business involves the development, marketing, and sale of products directly, by license, or through our affiliate label program with certain third-party publishers. Activision’s products cover diverse game categories including action/adventure, action sports, racing, role-playing, simulation, first-person action, music, and strategy. Activision’s target customer base ranges from casual players to game enthusiasts, and children to adults.

Blizzard Entertainment, Inc.

Blizzard Entertainment, Inc. (“Blizzard”) is a leader in terms of subscriber base and revenues generated in the subscription-based massively multi-player online role-playing game (“MMORPG”) category. Blizzard internally develops and publishes PC-based computer games and maintains its proprietary online-game related service, Battle.net. Our Blizzard business involves the development, marketing, sales and support of role playing action and strategy games. Blizzard also develops, hosts, and supports its online subscription-based games in the MMORPG category. Blizzard is the development studio and publisher best known as the creator of World of Warcraft and the multiple award winning Diablo, StarCraft, and Warcraft franchises. Blizzard distributes its products and generates revenues worldwide through various means, including: subscription revenues (which consist of fees from individuals playing World of Warcraft, such as prepaid cards and other ancillary online revenues); retail sales of physical “boxed” products; electronic download sales of PC products; and licensing of software to third-party companies that distribute World of Warcraft in China, Russia, and Taiwan.

Activision Blizzard Distribution

Activision Blizzard Distribution (“Distribution”) consists of operations in Europe that provide warehousing, logistical, and sales distribution services to third-party publishers of interactive entertainment software, our own publishing operations, and manufacturers of interactive entertainment hardware.

Activision Blizzard’s non-core exit operations

Activision Blizzard’s non-core exit operations (“Non-Core”) represent legacy Vivendi Games’ divisions or business units that we have exited or substantially wound down as part of our restructuring and integration efforts as a result of the Business Combination described below, but do not meet the criteria for separate reporting of discontinued operations.

Business Combination

On July 9, 2008, a business combination (the “Business Combination”) by and among Activision, Inc., SeGO Merger Corporation, a wholly-owned subsidiary of Activision, Inc., Vivendi S.A. (“Vivendi”), VGAC LLC, a wholly-owned subsidiary of Vivendi, and Vivendi Games, Inc. (“Vivendi Games”), a wholly-owned subsidiary of VGAC LLC, was consummated. As a result of the consummation of the Business Combination, Activision, Inc. was renamed Activision

[Table of Contents](#)

Blizzard, Inc. For accounting purposes, the Business Combination is treated as a “reverse acquisition,” with Vivendi Games deemed to be the acquirer. The historical financial statements of Activision Blizzard, Inc. prior to July 9, 2008 are those of Vivendi Games. See Note 1 of the Notes to Consolidated Financial Statements included in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2008 for a more complete discussion of the Business Combination.

Activision Blizzard continues to operate as a public company traded on NASDAQ under the ticker symbol ATVI and now conducts the combined business operations of Activision, Inc. and Vivendi Games including its subsidiary, Blizzard Entertainment.

We maintain significant operations in the United States, Canada, the United Kingdom (“UK”), Germany, France, Italy, Spain, Australia, Sweden, South Korea, Norway, Denmark, China, and the Netherlands.

Basis of Presentation

Activision Blizzard prepared the accompanying unaudited Condensed Consolidated Financial Statements in accordance with the rules and regulations of the Securities and Exchange Commission for interim reporting. As permitted under those rules and regulations, certain notes or other information that are normally required by accounting principles generally accepted in the United States of America (“U.S. GAAP”) have been condensed or omitted if they substantially duplicate the disclosures contained in the annual audited Consolidated Financial Statements. The unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and notes thereto included in our Annual Report

on Form 10-K for the year ended December 31, 2008. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation of our financial position and results of operations in accordance with U.S. GAAP have been included.

The accompanying unaudited Condensed Consolidated Financial Statements include the accounts and operations of Activision Blizzard. All intercompany accounts and transactions have been eliminated. The Condensed Consolidated Financial Statements have been prepared in conformity with U.S. GAAP. The preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements. Actual results could differ from these estimates and assumptions.

Certain reclassifications have been made to prior period amounts to conform to the current period presentation.

We have evaluated subsequent events through August 7, 2009, which is the date these Condensed Consolidated Financial Statements were issued.

2. Summary of significant accounting policies

Financial Instruments

The estimated fair values of financial instruments have been determined using available market information and valuation methodologies described below. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein may not be indicative of the amounts that we could realize in a current market exchange. The use of different market assumptions or valuation methodologies may have a material effect on the estimated fair value amounts.

The carrying amount of cash and cash equivalents, accounts receivable, accounts payable, and accrued expenses are a reasonable approximation of fair value due to their short-term nature. At June 30, 2009, our \$102 million of short-term investments included \$57 million of auction rate securities (“ARS”) classified as trading, \$42 million of restricted cash, and \$3 million of mortgage-backed securities. The mortgage-backed securities are carried at fair value with fair values estimated based on quoted market prices. Long-term investments represent ARS classified as available-for-sale. Both short-term and long-term ARS, which are comprised of student loan backed securities, are carried at fair value with fair values estimated using an income-approach model (discounted cash-flow analysis).

Derivative Financial Instruments

On January 1, 2009, we adopted Statement of Financial Accounting Standard (“SFAS”) No. 161, “Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133” (“SFAS No. 161”). The adoption of SFAS No. 161 had no financial impact on our Condensed Consolidated Financial Statements and only required additional financial statement disclosures. We have applied the requirements of SFAS No. 161 on a prospective basis. Accordingly, disclosures related to interim periods prior to the date of adoption have not been presented.

[Table of Contents](#)

Foreign Currency Swaps and Forward Contracts Not Designated as Hedges

We transact business in various currencies other than the U.S. dollar and have significant international sales and expenses denominated in currencies other than the U.S. dollar, subjecting us to currency exchange rate risks. To mitigate our risk from foreign currency fluctuations we periodically enter into currency derivative contracts, principally swaps and forward contracts with maturities of twelve months or less with Vivendi as our principal counterparty. We do not hold or purchase any foreign currency contracts for trading or speculative purposes and we do not designate these forward contracts or swaps as hedging instruments. Accordingly, we report the fair value of these contracts in our Condensed Consolidated Balance Sheet with changes in fair value recorded in our Condensed Consolidated Statement of Operations.

The effects of derivative instruments on our Condensed Consolidated Financial Statements were as follows (amounts in millions):

Fair Value of Derivative Instruments in Condensed Consolidated Balance Sheet	Fair Value At June 30, 2009	Balance Sheet Location
Foreign currency swaps and forward contracts not designated as hedges	\$ 1	Accrued expenses and other liabilities
	Amount of Net Realized and Unrealized Gain (Loss) Recognized in Income on Derivatives for the Three Months Ended June 30, 2009	Income Statement Location
Effect of Derivative Instruments on Condensed Consolidated Statement of Operations		
Foreign currency swaps and forward contracts not designated as hedges	\$ (2)	Investment income, net

Net realized and unrealized gains related to foreign currency swaps and forward contracts not designated as hedges were less than \$1 million for the six months ended June 30, 2009.

3. Inventories

stock options that were outstanding and vested at the consummation of the Business Combination and included in the purchase price of Activision, Inc. to the extent that the tax deduction did not exceed the fair value of those options.

[Table of Contents](#)**6. Income taxes**

The income tax expense of \$23 million for the three months ended June 30, 2009 reflects an effective tax rate of 11%. The effective tax rate of 11% for the three months ended June 30, 2009 differs from the statutory rate of 35% primarily due to foreign income taxes provided at lower rates, geographic mix in profitability, recognition of research and development credits and IRC 199 domestic production deductions.

For the six months ended June 30, 2009, the tax rate is based on our projected annual effective tax rate for 2009, and also includes certain discrete tax benefits recorded during the period. Our tax expense of \$23 million for the six months ended June 30, 2009 reflects an effective tax rate of 6% which differs from our effective tax rate of 37% for the six months ended June 30, 2008 primarily due to lower foreign income tax rates and certain discrete tax benefits recorded during the period related to the release of valuation allowances on foreign net operating losses and the impact of changes to California tax laws.

We evaluate our deferred tax assets, including net operating losses, to determine if a valuation allowance is required. We assess whether a valuation allowance should be established or released based on the consideration of all available evidence using a “more likely than not” standard. In making such judgments, significant weight is given to evidence that can be objectively verified. At December 31, 2008 we had a foreign net operating loss valuation allowance of \$23 million. The ultimate realization of the foreign net operating losses depends upon the generation of future taxable income during the periods in which those temporary differences become deductible. We currently expect to realize these net operating losses through taxable income; therefore, in the first quarter of 2009, we released a valuation allowance of \$23 million against our deferred tax assets.

California Senate Bill No.15 was enacted in February 20, 2009 and contains significant changes to the state of California tax landscape. When there is an enacted change in tax laws or rate, we adjust our deferred tax liabilities and assets to reflect the change. During the six months ended June 30, 2009, we reduced our net deferred tax liabilities and tax provision by \$10 million.

7. Software development costs and intellectual property licenses

At June 30, 2009, capitalized software development costs included \$199 million of internally developed software costs and \$48 million of payments made to third-party software developers. At December 31, 2008, capitalized software development costs included \$173 million of internally developed software costs and \$63 million of payments made to third-party software developers. Capitalized intellectual property licenses were \$56 million and \$40 million at June 30, 2009 and December 31, 2008, respectively. Amortization of capitalized software development costs and intellectual property licenses for the three months ended June 30, 2009 and 2008 was \$97 million and \$3 million, respectively. There were no write-offs or impairments for the three months ended June 30, 2009. Write-offs and impairments were \$18 million for the three months ended June 30, 2008. Amortization of capitalized software development costs and intellectual property licenses for the six months ended June 30, 2009 and 2008 was \$169 million and \$4 million, respectively. Write-offs and impairments were less than \$1 million and \$39 million for the six months ended June 30, 2009 and 2008, respectively.

8. Restructuring

The Company has been implementing its organizational restructuring plan as a result of the Business Combination described in Note 1 of the Notes to Condensed Consolidated Financial Statements. This organizational restructuring plan includes the integration of different operations to streamline the combined organization of Activision Blizzard.

The primary goals of the organizational restructuring were to rationalize the title portfolio and consolidate certain corporate functions so as to realize the synergies of the Business Combination.

The total expected restructuring charges related to the Business Combination from the Business Combination date through September 30, 2009 are presented below (amounts in millions):

	Low	High
Total expected restructuring costs, before tax	\$ 126	\$ 129
Total expected restructuring costs, after tax	76	78

The after tax cash charges are expected to consist primarily of employee-related severance cash costs (approximately \$52 million), facility exit cash costs (approximately \$8 million) and cash contract terminations costs (approximately \$18 million). Separately, through June 30, 2009 these restructuring charges were partially offset by cash proceeds of approximately \$37 million from asset disposals and after tax cash benefits related to the streamlining of the Vivendi Games title portfolio.

Available-for-Sale Investments

The following table summarizes our short-term and long-term investments classified as available-for-sale at June 30, 2009 and December 31, 2008 (amounts in millions):

At June 30, 2009	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Short-term investments:

Long-term investments:

Long-term investments:				
Taxable auction rate securities	27	—	(4)	23
Total available-for-sale investments	\$ 35	\$ —	\$ (5)	\$ 30

The following table illustrates the gross unrealized losses on available-for-sale securities and the fair value of those securities, aggregated by investment category at June 30, 2009 and December 31, 2008. The table also illustrates the length of time that they have been in a continuous unrealized loss position at June 30, 2009 and December 31, 2008 (amounts in millions):

At June 30, 2009	Less than 12 months		12 months or more		Total	
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
Taxable auction rate securities	\$ (4)	\$ 23	\$ —	\$ —	\$ (4)	\$ 23

At December 31, 2008	Less than 12 months		12 months or more		Total	
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
Mortgage-backed securities	\$ (1)	\$ 7	\$ —	\$ —	\$ (1)	\$ 7
Taxable auction rate securities	(4)	23	—	—	(4)	23
Total	\$ (5)	\$ 30	\$ —	\$ —	\$ (5)	\$ 30

The total unrealized loss of \$4 million at June 30, 2009 is due to the taxable ARS held through Morgan Stanley Smith Barney LLC, which is 51% owned by Morgan Stanley and 49% owned by Citigroup, Inc., as a result of failed auctions. (The ARS were held directly through Citigroup, Inc. until the Morgan Stanley Smith Barney LLC joint-venture closed in the second quarter 2009.) Our investments in ARS are all backed by higher education student loans.

Based upon our analysis of the available-for-sale investments with unrealized losses, we have concluded that the gross unrealized losses of \$4 million at June 30, 2009 were temporary in nature. We do not intend to sell the investment securities that are in an unrealized loss position and do not consider that it is more-likely-than-not that we will be required to sell the investment securities before recovery of their amortized cost basis, which may be maturity. We have not identified any issues related to the ultimate repayment of principal as a result of credit concerns on these securities. However, facts and circumstances may change which could result in a decline in fair value considered to be other-than-temporary in the future.

The following table summarizes the contractually stated maturities of our investments classified as available-for-sale at June 30, 2009 (amounts in millions):

At June 30, 2009	Amortized cost	Fair value
Mortgage-backed securities (not due at a single maturity date)	\$ 3	\$ 3
Due after ten years	27	23
	\$ 30	\$ 26

Trading Investments

In connection with our acceptance of the UBS offer in November 2008, (see Note 3 and Note 6 of the Notes to Consolidated Financial Statements of our Annual Report on Form 10-K for the year ended December 31, 2008 for more details), resulting in our right to require UBS AG ("UBS") to purchase our ARS at par value beginning on June 30, 2010 (the "Rights"), we reclassified our investments in ARS held through UBS from available-for-sale to trading securities. The reclassification to trading securities reflects management's intent to exercise the Rights during the period between June 30, 2010 and

July 3, 2012, which results in the securities being held for the purpose of selling them in the near future. Prior to our agreement with UBS, our intent was to hold the ARS until the market recovered. At the time of reclassification, the unrealized loss on our ARS was \$5 million. This unrealized loss was included in accumulated other comprehensive income (loss). Upon reclassification to trading securities, we immediately recognized in investment income, net, the \$5 million unrealized loss not previously recognized in earnings. Subsequently, we recognized an additional decline in fair value of \$2 million for a total unrealized loss of \$7 million, included in investment income, net, in our Consolidated Statements of Operations for the year ended December 31, 2008. For the six months ended June 30, 2009, we recognized a \$2 million unrealized gain included in investment income, net. The fair value of the ARS held through UBS totaled \$57 million and \$55 million at June 30, 2009 and December 31, 2008, respectively.

We continue to monitor the ARS market and consider its impact (if any) on the fair value of our investments. If the market conditions deteriorate further, we may be required to record additional unrealized losses in earnings, which may be offset by corresponding increases in value of the UBS offer.

12. Fair value measurements

The three levels of inputs used to measure fair value are as follows:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

[Table of Contents](#)

The tables below segregate all assets and liabilities that are measured at fair value on a recurring basis (which means they are measured at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date (amounts in millions):

[Table of Contents](#)

at fair value at the date of the Business Combination as it will be settled by a variable number of shares of our common stock based on the average closing price for the five business days immediately preceding issuance of the shares. When estimating the fair value, we considered our projection of revenues from the related titles under the earn-out provisions. For the six months ended June 30, 2009, there was no change in our fair value estimate of this financial liability.

The following table provides a reconciliation of the beginning and ending balances of our financial assets and financial liabilities classified as Level 3 (amounts in millions):

	Level 3
Balance at December 31, 2008, net	\$ 57
Total losses realized/unrealized included in earnings (a) (b)	—

- (a) Due to uncertainties surrounding the timing of liquidation of our ARS held through Morgan Stanley Smith Barney LLC, which is 51% owned by Morgan Stanley and 49% owned by Citigroup, Inc., we classify these instruments as long-term investments in our Condensed Consolidated Balance Sheet at June 30, 2009. (The ARS were held directly through Citigroup, Inc. until the Morgan Stanley Smith Barney LLC joint-venture closed in the second quarter 2009.) Liquidity for these ARS is typically provided by an auction process which allows holders to sell their notes and resets the applicable interest rate at pre-determined intervals, usually every 7 to 35 days. On an industry-wide basis, many auctions have failed, and there is, as yet, no meaningful secondary market for these instruments. Each of the ARS in our long-term investment portfolio at June 30, 2009 has experienced a failed auction and there is no assurance that future auctions for these securities will succeed. An auction failure means that the parties wishing to sell their securities could not be matched with an adequate volume of buyers. In the event that there is a failed auction, the indenture governing the security requires the issuer to pay interest at a contractually defined rate that is generally above market rates for other types of similar instruments. The securities for which auctions have failed will continue to earn interest at the contractual rate and be auctioned every 7 to 35 days until the auction succeeds, the issuer calls the securities or they mature. As a result, our ability to liquidate and fully recover the carrying value of our ARS in the near term may be limited or not exist.

Our ARS held through UBS are classified as short-term investments in our Condensed Consolidated Balance Sheet at June 30, 2009 as we expect to sell our ARS under the put option from UBS within one year if we cannot liquidate them at par prior to then. See (b) below for further details.

Consequently, fair value measurements of our ARS have been estimated using an income-approach model (discounted cash-flow analysis). When estimating the fair value, we consider both observable market data and non-observable factors, including credit quality, duration, insurance wraps, collateral composition, maximum rate formulas, comparable trading instruments, and likelihood of redemption. Significant assumptions used in the analysis include estimates for interest rates, spreads, cash flow timing and amounts, and holding periods of the securities. See Notes 3 and 6 of the Notes to Consolidated Financial Statements of our Annual Report on Form 10-K for the year ended December 31, 2008 for additional information regarding our ARS.

- (b) Put option from UBS represents an offer from UBS providing us with the right to require UBS to purchase our ARS held through UBS at par value (see Note 3 of the Notes to Consolidated Financial Statements of our Annual Report on Form 10-K for the year ended December 31, 2008 for more details). To value the put option, we considered a number of factors including its intrinsic value, interest rates, the maturity of the option, and our assessment of the credit quality of UBS.

13. Operating segments, geographic regions, and platforms

Our operating segments are a reflection of our internal organizational structure, the manner in which our operations are reviewed and managed by our Chief Executive Officer, our Chief Operating Decision Maker (“CODM”), the manner in which operating performance is assessed and resources are allocated, and the availability of separate financial information.

Prior to the Business Combination, Vivendi Games managed its business in two main divisions: Blizzard Entertainment and Sierra Entertainment (including Sierra online and Vivendi Games Mobile). As a result of the Business Combination, we provide our CODM financial information based upon management’s new organizational structure.

[Table of Contents](#)

Currently, we operate under four operating segments: (i) Activision, which publishes interactive entertainment software and peripherals, which includes businesses operated by Activision, Inc. prior to the Business Combination and certain studios, assets, and titles previously included in Vivendi Games’

Sierra Entertainment operating segment prior to the Business Combination, (ii) Blizzard, which publishes traditional games and online subscription-based games in the MMORPG category, (iii) Distribution, which distributes interactive entertainment software and hardware products (these three operating segments form Activision Blizzard's core operations) and (iv) Non-Core, Activision Blizzard's non-core exit operations represent legacy Vivendi Games' divisions or business units that we have exited or substantially wound down as part of our restructuring and integration efforts as a result of the Business Combination, but do not meet the criteria for separate reporting of discontinued operations. All prior period segment information has been restated to conform to this new segment presentation.

The consummation of the Business Combination resulted in net revenues and segment income (loss) from the businesses operated by Activision, Inc. prior to the Business Combination being included for the three and six months ended June 30, 2009, but not for the same periods in 2008. Also, the Activision operating segment includes Vivendi Games titles retained after the Business Combination.

The CODM reviews segment performance exclusive of the impact of the deferred net revenues and related cost of sales, stock-based compensation expense, restructuring expense, amortization of intangible assets and purchase price accounting related adjustments, and integration and transaction costs. Information on the operating segments and reconciliations of total net revenues and total segment income from operations to consolidated net revenues and operating income for the three and six months ended June 30, 2009 and 2008 are presented below (amounts in millions):

We did not have a single external customer that accounted for 10% or more of consolidated net revenues for either of the three or six months ended June 30, 2008.

14. Computation of earnings per share

The following table sets forth the computation of basic and diluted earnings per common share (amounts in millions, except per share data):

On January 1, 2009, we adopted the new guidance for determining whether instruments granted in share-based payment transactions are participating securities and, as a result, unvested share-based awards which include the right to receive

[Table of Contents](#)

non-forfeitable dividends or dividend equivalents are considered to participate with common stock in undistributed earnings. Companies that issue share-based awards considered to be participating securities are required to calculate basic and diluted earnings per common share amounts under the two-class method. The two-class method excludes from earnings per common share calculations any dividends paid or owed to participating securities and any undistributed earnings considered to be attributable to participating securities. The accounting guidance requires retrospective application to all prior-period earnings per share data presented. Our unvested restricted stock rights (including restricted stock units, restricted stock awards, and performance shares) are considered participating securities since these securities have non-forfeitable rights to dividends or dividend equivalents during the contractual period of the share-based payment award. Since the unvested restricted stock rights are considered participating securities, we are required to use the two-class method in our computation of basic and diluted net earnings per common share. For both the three and six months ended June 30, 2009, we had outstanding unvested restricted stock rights with respect to 10 million shares of common stock on a weighted-average basis. The adoption did not change

our basic earnings per common share for the three months ended June 30, 2009 and decreased our basic earnings per common share by \$0.01 for the six months ended June 30, 2009. The adoption did not change our diluted earnings per common share for the three and six months ended June 30, 2009.

On July 9, 2008, Vivendi obtained control of Activision, Inc. through acquisition of the majority of the outstanding common stock of Activision, Inc. For accounting purposes, Vivendi Games is deemed to be the acquirer (reverse acquisition — see Note 1 of the Notes to Condensed Consolidated Financial Statements). The historical financial statements prior to July 9, 2008, are those of Vivendi Games. Further, earnings per common share for periods prior to the Business Combination are retrospectively adjusted to reflect the number of split adjusted shares received by Vivendi, former parent of Vivendi Games.

Potential common shares are not included in the denominator of the diluted earnings per common share calculation when inclusion of such shares would be anti-dilutive. Therefore, stock-based awards consisting of stock options with respect to 19 million shares of common stock for both the three and six months ended June 30, 2009, were not included in the calculation of diluted earnings per common share because their effect would be anti-dilutive.

15. Capital transactions

Repurchase Program

On November 5, 2008, we announced that our Board of Directors authorized a stock repurchase program under which we may repurchase up to \$1 billion of our common stock. Under this program, we may repurchase our common stock from time to time on the open market or in private transactions, including structured or accelerated transactions. We will determine the timing and amount of repurchases based on our evaluation of market conditions and other factors. The repurchase program may be suspended or discontinued by the Company at any time.

Under the repurchase program, we repurchased 51 million shares of our common stock for \$542 million during the six months ended June 30, 2009. At June 30, 2009, we had \$332 million available for utilization under the repurchase program. In addition, we had agreed to repurchase an additional 2 million shares for a value of \$26 million, which had not been settled at June 30, 2009.

On July 31, 2009, our Board of Directors authorized an increase of \$250 million to the stock repurchase program bringing the total authorization to \$1.25 billion.

16. Commitments and contingencies

We did not have any significant changes to our commitments since December 31, 2008. See Note 18 of the Notes to Consolidated Financial Statements included in Item 8 of the Annual Report on Form 10-K for the year ended December 31, 2008 for more information regarding our commitments.

Legal Proceedings

On February 8, 2008, the Wayne County Employees' Retirement System filed a lawsuit challenging the Business Combination in the Delaware Court of Chancery. The suit is a putative class action filed against the parties to the Business Combination agreement, as well as certain current and former members of our Board of Directors. The plaintiff alleges, among other things, that our current and former directors named therein failed to fulfill their fiduciary duties with regard to the Business Combination by "surrendering" the negotiating process to "conflicted management," that those breaches were aided and abetted by Vivendi and those of its subsidiaries named in the complaint, and that the preliminary proxy statement filed by the Company on January 31, 2008 contained certain statements that the plaintiff

[Table of Contents](#)

alleges are false and misleading. The plaintiff seeks an order from the court that, among other things, certifies the case as a class action, enjoins the Business Combination, requires the defendants to disclose all material information, declares that the Business Combination is in breach of the directors' fiduciary duties and therefore unlawful and unenforceable, awards the plaintiff and the putative class damages for all profits and special benefits obtained by the defendant in connection with the Business Combination and tender offer, and awards the plaintiff its cost and expense, including attorney's fees.

After various initial motions were filed and ruled upon, on May 8, 2008, the plaintiff filed an amended complaint that, among other things, added allegations relating to a revised preliminary proxy statement filed by the Company on April 30, 2008. Additional motions were then filed, including a motion for preliminary injunction filed by the plaintiff and a motion to dismiss filed by Vivendi and its subsidiaries. On June 14, 2008, the plaintiff filed a motion for leave to file a second amended complaint. On June 30, 2008, the court granted Vivendi and its subsidiaries' motion to dismiss, pursuant to a stipulation with the plaintiff, and on July 1, 2008, denied the plaintiff's motion for preliminary injunction.

On December 23, 2008, the plaintiff filed an amended motion for leave to file a second amended complaint. The court granted the motion on January 14, 2009 and the second amended complaint was deemed filed on the same date. The second amended complaint asserts claims similar to the ones made in the original complaint, challenging Activision's Board of Directors' actions in connection with the negotiation and approval of the Business Combination, as well as disclosures made to our shareholders and certain amendments made to our certificate of incorporation in connection therewith. In addition, the second amended complaint asserts that Activision's Board of Directors breached its fiduciary duties in approving and recommending those amendments to the certificate of incorporation. Among other things, the plaintiff seeks certification of the action as a class action, a declaration that amendments made to the certificate of incorporation are invalid and unenforceable, a declaration that our directors breached their fiduciary duties, rescission of the Business Combination and related transactions, and damages, interest, fees and costs. On July 24, 2009, the court granted the Company's motion to dismiss the complaint for failure to state a claim.

In addition, we are party to other routine claims and suits brought by us and against us in the ordinary course of business, including disputes arising over the ownership of intellectual property rights, contractual claims, employment laws, regulations and relationships, and collection matters. In the opinion of management, after consultation with legal counsel, the outcome of such routine claims and lawsuits will not have a material adverse effect on our business, financial condition, results of operations, or liquidity.

17. Stock-based compensation

Restricted Stock Rights

The following table summarizes our restricted stock rights (including restricted stock units, restricted stock, and performance shares) activity for the six months ended June 30, 2009 (amounts in thousands, except per share amounts):

	Restricted Stock Rights	Weighted-Average Grant Date Fair Value
Balance at December 31, 2008	10,267	\$ 14.52
Granted	578	11.55
Vested	(874)	11.48
Forfeited	(87)	11.51
Balance at June 30, 2009	9,884	12.74

At June 30, 2009, \$60 million of total unrecognized compensation cost related to Activision Blizzard restricted stock rights is expected to be recognized over a weighted-average period of 1.88 years.

[Table of Contents](#)

Stock Option Activity

Stock option activity for the six months ended June 30, 2009 is as follows (amounts in millions, except number of shares in thousands and per share amounts):

	Shares	Weighted-average exercise price	Weighted-average remaining contractual term	Aggregate intrinsic value
Outstanding at December 31, 2008	97,841	\$ 6.53		
Granted	3,194	11.49		
Exercised	(20,425)	2.43		
Forfeited	(687)	9.27		
Outstanding at June 30, 2009	79,923	7.76	6.27	\$ 424
Vested and expected to vest at June 30, 2009	75,301	\$ 7.51	5.57	\$ 416
Exercisable at June 30, 2009	46,755	5.34	4.82	347

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (i.e. the difference between our closing stock price on the last trading day of the period and the exercise price, times the number of shares for options where the exercise price is below the closing stock price) that would have been received by the option holders had all option holders exercised their options on that date. This amount changes over time based on the changes in the fair market value of our stock. Total intrinsic value of options exercised was \$133 million and \$185 million for the three and six months ended June 30, 2009, respectively.

At June 30, 2009, \$81 million of total unrecognized compensation cost related to stock options is expected to be recognized over a weighted-average period of 1.5 years.

Net cash proceeds from the exercise of stock options were \$45 million for the six months ended June 30, 2009. Income tax benefits from stock option exercises were \$56 million for the six months ended June 30, 2009. We present excess tax benefits or shortfall from the exercise of stock options, if any, as financing cash flows, rather than operating cash flows.

Blizzard Equity Plan ("BEP")

In 2006, Blizzard implemented the BEP, an equity incentive plan denominated in U.S. dollars. Under the BEP, restricted shares of Blizzard stock and other cash settled awards were granted to certain key executives and employees of Blizzard.

At June 30, 2009, unrecognized compensation expense under the BEP was \$10 million, which will be recognized over the following six months. At June 30, 2009, accrued expenses and other liabilities in our Condensed Consolidated Balance Sheet included \$79 million related to this plan.

Vivendi Corporate Plan

There were no new grants from Vivendi during the three and six months ended June 30, 2009. During the three and six months ended June 30, 2009 there were no material changes to the components of the cash-settled instruments. At June 30, 2009, other liabilities included \$5 million relating to the Vivendi Corporate Plan.

Method and Assumptions on Valuation of Stock Options

Our stock options have features that differentiate them from exchange-traded options. These features include lack of transferability, early exercise, vesting restrictions, pre- and post-vesting termination provisions, blackout dates, and time-varying inputs. In addition, some of the options have non-traditional features, such as accelerated vesting upon the satisfaction of certain performance conditions that must be reflected in the valuation. A binomial-lattice model was selected because it is better able to explicitly address these features than closed-form models such as the Black-Scholes model, and is able to reflect expected future changes in model inputs, including changes in volatility, during the option's contractual term.

We have estimated the expected future changes in model inputs during the option's contractual term. The inputs required by our binomial-lattice model include expected volatility, risk-free interest rate, risk-adjusted stock return, dividend yield, contractual term, and vesting schedule, as well as measures of

[Table of Contents](#)

termination behavior. Statistical methods were used to estimate employee rank-specific termination rates. These termination rates, in turn, were used to model the number of options that are expected to vest and post-vesting termination behavior. Employee rank-specific estimates of expected time-to-exercise ("ETTE") were used to reflect employee exercise behavior. ETTE was estimated by using statistical procedures to first estimate the conditional probability of exercise occurring during each time period, which is conditional on the option surviving to that time period, and then using those probabilities to estimate ETTE. The model was calibrated by adjusting parameters controlling exercise and post-vesting termination behavior so that the measures output by the model matched values of these measures that were estimated from historical data.

The following tables present the weighted-average assumptions and the weighted-average fair value at grant date using the binomial-lattice model:

	Employee and director options for three months ended June 30, 2009	Employee and director options for six months ended June 30, 2009
Expected life (in years)	6.68	6.67
Risk free interest rate	3.33%	3.33%
Volatility	54.61%	54.59%
Dividend yield	—	—
Weighted-average fair value at grant date	\$ 5.88	\$ 5.86

To estimate volatility for the binomial-lattice model, we use methods that consider the implied volatility method based upon the volatilities for exchange-traded options on our stock to estimate short-term volatility, the historical method (annualized standard deviation of the instantaneous returns on Activision Blizzard's stock) during the option's contractual term to estimate long-term volatility, and a statistical model to estimate the transition or "mean reversion" from short-term volatility to long-term volatility. Based on these methods, for options granted during the three and six months ended June 30, 2009, the expected stock price volatility ranged from 48.44% to 60.77%.

As is the case for volatility, the risk-free rate is assumed to change during the option's contractual term. Consistent with the calculation required by a binomial lattice model, the risk-free rate reflects the interest from one time period to the next ("forward rate") as opposed to the interest rate from the grant date to the given time period ("spot rate"). Since we do not currently pay dividends and are not expected to pay them in the future, we have assumed that the dividend yield is zero.

The expected life of employee stock options represents the weighted-average period the stock options are expected to remain outstanding and is an output from the binomial-lattice model. The expected life of employee stock options depends on all of the underlying assumptions and calibration of our model. A binomial-lattice model can be viewed as assuming that employees will exercise their options when the stock price equals or exceeds an exercise boundary. The exercise boundary is not constant, but continually declines as the option's expiration date approaches. The exact placement of the exercise boundary depends on all of the model inputs as well as the measures that are used to calibrate the model to estimated measures of employees' exercise and termination behavior.

As stock-based compensation expense recognized in the Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2009 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience.

Accuracy of Fair Value Estimates

We developed the assumptions used in the binomial-lattice model, including model inputs and measures of employees' exercise and post-vesting termination behavior. Our ability to accurately estimate the fair value of share-based payment awards at the grant date depends upon the accuracy of the model and our ability to accurately forecast model inputs as long as ten years into the future. These inputs include, but are not limited to, expected stock price volatility, risk-free rate, dividend yield, and employee termination rates. Although the fair value of employee stock options is determined using an option-pricing model, the estimates that are produced by this model may not be indicative of the fair value observed between a willing buyer and a willing seller. Unfortunately, it is difficult to determine if this is the case, because markets do not currently exist that permit the active trading of employee stock option and other share-based instruments.

Stock-based Compensation Expense

The following table sets forth the total stock-based compensation expense resulting from stock options, restricted stock rights, the BEP, and the Vivendi Corporate Plan included in our Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2009 and 2008 (amounts in millions):

	Three months ended June 30,		Six months ended June 30,	
	2009	2008	2009	2008
Cost of sales—software royalties and amortization	\$ 10	\$ —	\$ 15	\$ —
Cost of sales—MMORPG	—	—	—	1
Product development	8	9	17	27
Sales and marketing	4	1	7	2
General and administrative	20	2	32	(9)
Restructuring	—	—	2	—

Stock-based compensation expense before income taxes	42	12	73	21
Income tax benefit	(15)	(4)	(29)	(8)
Total stock-based compensation expense, net of income tax benefit	\$ 27	\$ 8	\$ 44	\$ 13

As a result of the reverse acquisition accounting treatment for the Business Combination, previously issued Activision, Inc. stock options and restricted stock rights granted to employees and directors outstanding and unvested at the date of the Business Combination, were accounted for as an exchange of awards. The fair value of the outstanding vested and unvested awards was measured on the date of the acquisition, and for unvested awards, which required service subsequent to the date of the Business Combination, a portion of the awards' fair values was allocated to future service and will be recognized over the remaining future requisite service period. As a result of this fair value measurement of stock-based payment awards on the date of the acquisition, we estimate that we incurred an additional \$17 million and \$26 million of stock-based compensation expense for the three and six months ended June 30, 2009, respectively.

Stock option expenses included in the development costs of computer software are capitalized as discussed in Note 3 of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2008. The following table summarizes stock-based compensation included in our Consolidated Balance Sheets as a component of software development (amounts in millions):

	Software development
Balance at December 31, 2008	\$ 36
Stock-based compensation expense capitalized during period	31
Amortization of capitalized stock-based compensation expense	(11)
Balance at June 30, 2009	\$ 56

18. Related party transactions

Treasury

Our foreign currency risk policy seeks to reduce risks arising from foreign currency fluctuations. We use derivative financial instruments, primarily currency forward contracts and swaps, with Vivendi as our principal counterparty. The gross notional amount of outstanding foreign exchange swaps was \$320 million at June 30, 2009. The notional amounts of our outstanding forward foreign exchange contracts and foreign exchange swaps were \$126 million and \$118 million, respectively, at December 31, 2008. See Note 10 of the Notes to Condensed Consolidated Financial Statements for pre-tax net realized and unrealized gains (losses) that resulted from foreign exchange contracts and swaps with Vivendi and were recognized in our Condensed Consolidated Statements of Operations.

Others

Activision Blizzard has entered into various transactions and agreements, including treasury management services, investor agreement, internal group reporting services, credit facilities arrangement and music royalty agreements with Vivendi and its subsidiaries and affiliates. None of these services, transactions and agreements with Vivendi and its subsidiaries and affiliates is material either individually or in the aggregate to the Condensed Consolidated Financial Statements as a whole.

19. Recently issued accounting pronouncements

On April 9, 2009, the Financial Accounting Standards Board (the "FASB") issued the following three Final Staff Positions ("FSPs") intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities:

FSP FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly," provides guidance on how to determine the fair value of assets and liabilities in an environment where the volume and level of activity for the asset or liability have significantly decreased and re-emphasizes that the objective of a fair value measurement remains an exit price.

FSP FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments," requires companies to disclose the fair value of financial instruments within interim financial statements, adding to the current requirement to provide those disclosures annually.

FSP FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments," modifies the requirements for recognizing other-than-temporary-impairment on debt securities and significantly changes the impairment model for such securities. Under FSP FAS 115-2 and 124-2, a security is considered to be other-than-temporarily impaired if the present value of cash flows expected to be collected are less than the security's amortized cost basis (the difference being defined as the credit loss) or if the fair value of the security is less than the security's amortized cost basis and the investor intends, or more-likely-than-not will be required, to sell the security before recovery of the security's amortized cost basis. If an other-than-temporary impairment exists, the charge to earnings is limited to the amount of credit loss if the investor does not intend to sell the security, and it is more-likely-than-not that it will not be required to sell the security, before recovery of the security's amortized cost basis. Any remaining difference between fair value and amortized cost is recognized in other comprehensive income, net of applicable taxes. Otherwise, the entire difference between fair value and amortized cost is charged to earnings. The FSP also modifies the presentation of other-than-temporary impairment losses and increases related disclosure requirements.

The FSPs are effective for interim and annual periods ending after June 15, 2009 and the adoption of these standards did not have a material impact on our results of operations or financial position.

In June 2009, the FASB issued SFAS No. 167, "Amendments to FASB Interpretation No. 46(R)" ("SFAS No. 167"). SFAS No.167 amends the evaluation criteria to identify the primary beneficiary of a variable interest entity provided by FASB Interpretation No. 46(R), "Consolidation of Variable Interest

Entities—An Interpretation of ARB No. 51.” Additionally, SFAS No.167 requires ongoing reassessments of whether an enterprise is the primary beneficiary of the variable interest entity. We are currently evaluating the impact from the adoption of SFAS No. 167 on our consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165, “Subsequent Events” (“SFAS No. 165”). SFAS No. 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the financial statements are issued or are available to be issued. We adopted SFAS No. 165 in the second quarter of 2009. The adoption of SFAS No. 165 did not significantly impact our reporting of subsequent events either through recognition or disclosure.

Repurchase Program

On July 31, 2009, our Board of Directors authorized an increase of \$250 million to the stock repurchase program bringing the total authorization to \$1.25 billion. See Note 15 of the Notes to Condensed Consolidated Financial Statements for further details regarding the repurchase program.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Business Overview

Activision Blizzard, Inc. is a worldwide pure-play online, personal computer (“PC”), console, and hand-held game publisher. The terms “Activision Blizzard,” the “Company,” “we,” “us,” and “our” are used to refer collectively to Activision Blizzard, Inc. and its subsidiaries. Based upon our organizational structure, we operate four operating segments as follows:

Activision Publishing, Inc.

Activision Publishing, Inc. (“Activision”) is a leading international publisher of interactive software products and peripherals. Activision develops and publishes video games on various consoles, hand-held platforms and the PC platform through internally developed franchises and license agreements. Activision currently offers games that operate on the Sony Computer Entertainment (“Sony”) PlayStation 2 (“PS2”), Sony PlayStation 3 (“PS3”), Nintendo Co. Ltd. (“Nintendo”) Wii (“Wii”), and Microsoft Corporation (“Microsoft”) Xbox 360 (“Xbox 360”) console systems; the Sony PlayStation Portable (“PSP”) and Nintendo Dual Screen (“NDS”) hand-held devices; the PC; and the new hand-held game system Nintendo DSi. Our Activision business involves the development, marketing, and sale of products directly, by license, or through our affiliate label program with certain third-party publishers. Activision’s products cover diverse game categories including action/adventure, action sports, racing, role-playing, simulation, first-person action, music, and strategy. Activision’s target customer base ranges from casual players to game enthusiasts, and children to adults.

Blizzard Entertainment, Inc.

Blizzard Entertainment, Inc. (“Blizzard”) is a leader in terms of subscriber base and revenues generated in the subscription-based massively multi-player online role-playing game (“MMORPG”) category. Blizzard internally develops and publishes PC-based computer games and maintains its proprietary online-game related service, Battle.net. Our Blizzard business involves the development, marketing, sales and support of role playing action and strategy games. Blizzard also develops, hosts, and supports its online subscription-based games in the MMORPG category. Blizzard is the development studio and publisher best known as the creator of World of Warcraft, which is played by more than 11 million subscribers worldwide, and the multiple award-winning Diablo, StarCraft, and Warcraft franchises. Blizzard distributes its products and generates revenues worldwide through various means, including: subscription revenues (which consist of fees from individuals playing World of Warcraft, such as prepaid cards and other ancillary online revenues); retail sales of physical “boxed” products; electronic download sales of PC products; and licensing of software to third-party companies that distribute World of Warcraft in China, Russia, and Taiwan. Blizzard is currently developing new games, including sequels to the StarCraft and Diablo franchises. Blizzard has entered into a new licensing agreement for World of Warcraft, StarCraft II, Battle.net and Warcraft III with an affiliated company of NetEase.com, Inc. in mainland China for a term of 3 years.

Activision Blizzard Distribution

Activision Blizzard Distribution (“Distribution”) consists of operations in Europe that provide warehousing, logistical, and sales distribution services to third-party publishers of interactive entertainment software, our own publishing operations, and manufacturers of interactive entertainment hardware.

Activision Blizzard’s non-core exit operations

Activision Blizzard’s non-core exit operations (“Non-Core”) represent legacy Vivendi Games’ divisions or business units that we have exited or substantially wound down as part of our restructuring and integration efforts as a result of the Business Combination described below, but do not meet the criteria for separate reporting of discontinued operations.

Business Combination

On July 9, 2008, a business combination (the “Business Combination”) by and among Activision, Inc., Sego Merger Corporation, a wholly-owned subsidiary of Activision, Inc., Vivendi S.A. (“Vivendi”), VGAC LLC, a wholly-owned subsidiary of Vivendi, and Vivendi Games, Inc. (“Vivendi Games”), a wholly-owned subsidiary of VGAC LLC, was consummated. As a result of the consummation of the Business Combination, Activision, Inc. was renamed Activision Blizzard, Inc. For accounting purposes, the Business Combination is treated as a “reverse acquisition,” with Vivendi Games deemed to be the acquirer. The historical financial statements of Activision Blizzard, Inc. prior to July 9, 2008 are those of Vivendi Games. See Note 1 of the Notes to Consolidated Financial Statements included in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2008 for a more complete discussion of the Business Combination.

Economic Conditions

The video games industry in North America and Europe had combined overall decreases of 28% and 18% in sales revenues for the three and six months ended June 30, 2009, respectively, compared to the same periods in 2008, according to The NPD Group, Charttrack and Gfk, as a result of a stronger base in the 2008 periods primarily due to a larger number of blockbuster product launches and a weakening economy in 2009. Despite this challenging macroeconomic environment Activision Blizzard gained market share during the three months ended June 30, 2009 compared to the same period in 2008.

Consolidated Statements of Operations Data

Special Note—The consummation of the Business Combination has resulted in financial information of the businesses operated by Activision, Inc. prior to the Business Combination being included from the date of the Business Combination (i.e. from July 9, 2008 onwards), but not for prior periods.

Net Revenues

For the three and six months ended June 30, 2009, net revenues from Activision and Distribution segments increased compared to the same periods in 2008 whereas Blizzard's net revenues remained constant. These results were principally attributable to the following:

- As a result of the Business Combination, net revenues of \$355 million and \$685 million from the Activision business operated by Activision, Inc. prior to the Business Combination were included in the three and six months ended June 30, 2009, respectively, but not for the same periods in 2008;
- Activision's net revenues for the three and six months ended June 30, 2009 included catalog sales of *Call of Duty: World at War*, *Call of Duty: Modern Warfare*, and *Guitar Hero World Tour*;
- Activision's net revenues for the three months ended June 30, 2009 included the newly released games *X-Men Origins: Wolverine*; *PROTOTYPE*; *Guitar Hero: Metallica* (released in Europe and Asia Pacific); *Guitar Hero: Smash Hits*; *Guitar Hero: Modern Hits*; *Transformers: Revenge of the Fallen*; and *Ice Age: Dawn of the Dinosaurs*;
- Blizzard's net revenues have remained steady for the three months ended June 30, 2009 compared to the same period in 2008 while Blizzard's net revenues slightly increased for the six months ended June 30, 2009 compared to the same period in 2008 as a result of an increase of digital download revenue and value added services; and

Table of Contents

- As a result of the Business Combination, Distribution net revenues of \$63 million and \$148 million were included in the three and six months ended June 30, 2009, respectively, but not for the same periods in 2008.

We estimate that changes in foreign exchange rates had an approximately \$60 million and \$150 million unfavorable impact to Activision Blizzard's consolidated net revenues for the three and six months ended June 30, 2009, respectively, compared to the same periods in 2008 as the U.S. dollar strengthened primarily in relation to the British pound, euro, Australian dollar, Korean won, and Swedish krona.

Segment Income (Loss) from Operations

For the three and six months ended June 30, 2009, the increase in total operating segment income compared to the same periods in 2008 was principally attributable to the decrease in the Non-Core segment operating loss due to the wind down of Vivendi Games' legacy divisions and business.

This was partially offset by a decrease in Blizzard's operating income due to an increase in investments in customer service and marketing support for World of Warcraft as well as an increase in product development costs in support of multiple titles in development.

As a result of the Business Combination, operating losses of \$4 million and \$39 million from the Activision business operated by Activision, Inc. prior to the Business Combination were included in the three and six months ended June 30, 2009, respectively, but not in the same periods in 2008. Activision's operating losses for the six months ended June 30, 2009 were primarily driven by significant product development investment for its slate of future titles and the intellectual properties licenses expense due to the release of the movie-related titles.

Supplemental Pro Forma Information

The consummation of the Business Combination has resulted in the businesses operated by Activision, Inc. prior to the Business Combination being included from the date of the Business Combination (i.e. from July 9, 2008 onwards), but not for prior periods. In the following table, we combine Activision, Inc.'s financial information with Activision Blizzard's reported financial information to show the comparable three and six months pro forma periods ended June 30, 2008 of Activision Blizzard. This pro forma information is for informational purposes only and does not reflect any operating efficiencies or inefficiencies which may result from the Business Combination and therefore is not necessarily indicative of results that would have been achieved had the business been combined during the periods presented. We have included schedules of reconciliation of the reported consolidated and segment financial information to the pro forma consolidated and segment financial information. Further, see Note 13 to the Condensed Consolidated Financial Statements for details of our segment presentation.

The decreases in Activision segment net revenues in the three and six months ended June 30, 2009 compared to the same periods in 2008 are mainly attributable to:

- Weakening market conditions as a result of declining consumer spending; and
- The stronger 2008 base period for our Guitar Hero franchise.

The decreases in Activision segment operating income in the three and six months ended June 30, 2009 compared to the same periods in 2008 are mainly attributable to:

- Weakening market conditions as a result of declining consumer spending;
- The stronger 2008 base period for our Guitar Hero franchise;
- The unfavorable impact of changes in foreign exchange rates with the U.S. dollar strengthened primarily in relation to the British pound, euro, Australian dollar, Korean won, and Swedish krona;

partially offset by:

- Lower operating expenses due in part to the cost containment strategies we implemented and synergies resulting from our restructuring.

For the three and six months ended June 30, 2009, general and administrative expenses increased compared to the same periods of the prior year. The increase in general and administrative expenses was principally the result of the consummation of the Business Combination, which resulted in general and administrative expenses of \$51 million and \$114 million (including \$3 million and \$17 million of integration costs) from the businesses operated by Activision, Inc. prior to the Business Combination being included for the three and six months ended June 30, 2009, respectively, but not for the same periods of the prior year.

For the three and six months ended June 30, 2009, we recorded \$20 million and \$32 million of stock option expenses, respectively, in general and administrative expenses compared to expenses of \$2 million and income of \$9 million recorded in same periods of the prior year, respectively. The increase in fair value of outstanding options at the Business Combination date contributed to the higher stock option expenses.

In the third quarter of 2008, we implemented an organizational restructuring as a result of the Business Combination. This organizational restructuring was to integrate different operations and to streamline the combined Activision Blizzard organization. The implementation of the organizational restructuring resulted in the following restructuring charges: severance costs, contract termination costs, fixed asset write-off on disposals, impairment charges on acquired trade names, prepaid royalties, intellectual property licenses, impairment charges on goodwill, and loss on disposal of assets/liabilities. We communicated to the affected employees and ceased use of certain offices under operating lease contracts. We have exited or substantially wound down our non-core operations, and at June 30, 2009 completed in majority the organizational restructuring activities as a result of the Business Combination. See Note 8 of the Notes to Condensed Consolidated Financial Statements for more detail.

Investment Income, Net (amounts in millions)

Interest income, net, decreased \$2 million for the three months ended June 30, 2009, compared to the same period of 2008 as a result of losses associated with foreign exchange contracts. Investment income for the six months ended June 30, 2009, was primarily derived from company's cash and cash equivalents and investments. Investment income increased for the six months ended June 30, 2009, compared to the same period of the prior year primarily as a result of higher cash and cash equivalents balances, offset, in part, by lower interest rates.

Income Tax Expense (amounts in millions)

The income tax expense of \$23 million for the three months ended June 30, 2009 reflects an effective tax rate of 11%. The effective tax rate of 11% for the three months ended June 30, 2009 differs from the statutory rate of 35% primarily due to foreign income taxes provided at lower rates, recognition of research and development credits and IRC 199 domestic production deductions.

[Table of Contents](#)

For the six months ended June 30, 2009 the tax rate is based on our projected annual effective tax rate for 2009, and also includes certain discrete tax benefits recorded during the period. Our tax expense of \$23 million for the six months ended June 30, 2009 reflects an effective tax rate of 6% which differs from our effective tax rate of 37% for the six months ended June 30, 2008 primarily due to foreign income taxes provided at lower rates and certain discrete tax benefits recorded during the period related to the release of valuation allowances on foreign net operating losses and the impact of changes to California tax laws.

The overall effective income tax rate for the year could be different from the tax rates in effect for the six months ended June 30, 2009 and will be dependent on our profitability for the remainder of the year. In addition, our effective income tax rates for the remainder of 2009 and future periods will depend on a variety of factors, such as changes in the geographic mix of income, applicable accounting rules, applicable tax laws and regulations, rulings and interpretations thereof, developments in tax audit and other matters, and variations in the estimated and actual level of annual pre-tax income or loss.

We historically have considered undistributed earnings of our foreign subsidiaries to be indefinitely reinvested outside of the United States and, accordingly, no U.S. taxes have been provided thereon. We currently intend to continue to indefinitely reinvest the undistributed earnings of our foreign subsidiaries outside of the United States of America.

On May 4, 2009, President Obama's administration announced several proposals to reform U.S. tax laws, including a proposal to further limit foreign tax credits and a proposal to defer tax deductions allocable to non-U.S. earnings until earnings are repatriated. It is unclear whether these proposed tax reforms will be enacted or, if enacted, what the scope of the reforms will be. Depending on their content, such reforms, if enacted, could have a material effect on our operating results and financial condition.

In addition to cash flows provided by operating activities, our primary source of liquidity was \$2.8 billion of cash and cash equivalents and short-term investments at June 30, 2009. With our cash and cash equivalents and expected cash flows provided by operating activities, we believe that we have sufficient liquidity to meet daily operations in the foreseeable future. We also believe that we have sufficient working capital (approximately \$3.4 billion at June 30, 2009), as well as availability under our credit facilities, to finance our operational requirements for at least the next twelve months, including purchases of inventory and equipment, the funding of the development, production, marketing and sale of new products, to finance the acquisition of intellectual property rights for future products from third parties, and to fund the stock repurchase program.

On November 5, 2008, we announced that our Board of Directors authorized a stock repurchase program under which we may repurchase up to \$1 billion worth of our common stock. Under this program, we may repurchase our common stock from time to time on the open market or in private transactions, including structured or accelerated transactions. We will determine the timing and amount of repurchases based on our evaluation of market conditions and other factors. The repurchase program may be suspended or discontinued by the Company at any time. At June 30, 2009, we had \$332 million available for utilization under the repurchase program.

On July 31, 2009, our Board of Directors authorized an increase of \$250 million to the stock repurchase program

[Table of Contents](#)

bringing the total authorization to \$1.25 billion.

Cash Flows from Operating Activities

The primary drivers of cash flows from operating activities have typically included the collection of customer receivables generated by the sale of our products and our subscription revenues, offset by payments to vendors for the manufacture, distribution and marketing of our products, third-party developers, and intellectual property holders, and to our workforce. A significant operating use of our cash relates to our continued investment in software

development and intellectual property licenses. We expect that we will continue to make significant expenditures relating to our investment in software development and intellectual property licenses.

Cash Flows from Investing Activities

The primary drivers of cash flows used in investing activities have typically included capital expenditures, acquisitions of privately held interactive software development companies and publishing companies and the net effect of purchases and sales/maturities of short-term investment instruments.

Cash Flows from Financing Activities

The primary drivers of cash flows provided by financing activities have historically related to transactions involving our common stock, including the issuance of shares of common stock to employees and the public and the purchase of treasury shares. We have not utilized debt financing as a source of cash flows. However, if needed, we may access and utilize the credit facilities that are described in "Credit Facilities" in Note 18 of the Notes to Consolidated Financial Statements included in our Form 10-K for the year ended December 31, 2008.

For the six months ended June 30, 2009, cash flows used in financing activities included \$542 million used to purchase Activision Blizzard stock under the stock repurchase program. Since the inception of the \$1 billion common stock repurchase program on November 5, 2008, we have repurchased \$668 million worth of our common stock under this program.

On July 31, 2009, our Board of Directors authorized an increase of \$250 million to the stock repurchase program bringing the total authorization to \$1.25 billion.

Capital Requirements

For the year ending December 31, 2009, we anticipate total capital expenditures of approximately \$80 million. Capital expenditures will be primarily for computer hardware and software purchases.

Off-balance Sheet Arrangements

At June 30, 2009 and December 31, 2008, Activision Blizzard had no relationships with unconsolidated entities or financial parties, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes, that have or are reasonably likely to have a material future effect on our financial condition, changes in financial condition, revenues or expenses, results of operation, liquidity, capital expenditure, or capital resources.

Financial Disclosure

We maintain internal control over financial reporting, which generally includes those controls relating to the preparation of our financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). We also are focused on our "disclosure controls and procedures," which as defined by the Securities and Exchange Commission (the "SEC") are generally those controls and procedures designed to ensure that financial and non-financial information required to be disclosed in our reports filed with the SEC is reported within the time periods specified in the SEC's rules and forms, and that such information is communicated to management, including our principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Our Disclosure Committee, which operates under the Board-approved Disclosure Committee Charter and Disclosure Controls & Procedures Policy, includes senior management representatives and assists executive management in its oversight of the accuracy and timeliness of our disclosures, as well as in implementing and evaluating our overall disclosure process. As part of our disclosure process, senior finance and operational representatives from all of our corporate divisions and business units prepare quarterly reports regarding their current quarter operational performance, future trends, subsequent

[Table of Contents](#)

events, internal controls, changes in internal controls and other accounting and disclosure-relevant information. These quarterly reports are reviewed by certain key corporate finance executives. These corporate finance representatives also conduct quarterly interviews on a rotating basis with the preparers of selected quarterly reports. The results of the quarterly reports and related interviews are reviewed by the Disclosure Committee. Finance representatives also conduct reviews with our senior management team, our internal and external counsel and other appropriate personnel involved in the disclosure process, as appropriate. Additionally, senior finance and operational representatives provide internal certifications regarding the accuracy of information they provide that is utilized in the preparation of our periodic public reports filed with the SEC. Financial results and other financial information also are reviewed with the Audit Committee of the Board of Directors on a quarterly basis. As required by applicable regulatory requirements, the principal executive and financial officers review and make various certifications regarding the accuracy of our periodic public reports filed with the SEC, our disclosure controls and procedures, and our internal control over financial reporting. With the assistance of the Disclosure Committee, we will continue to assess and monitor, and make refinements to, our disclosure controls and procedures, and our internal control over financial reporting.

Critical Accounting Policies and Estimates

Our Condensed Consolidated Financial Statements are prepared in accordance with U.S. GAAP. These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. To the extent there are material differences between these estimates, judgments or assumptions and actual results, our financial statements will be affected. The accounting policies that reflect our more significant estimates, judgments and assumptions and which we believe are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

- Revenue Recognition
- Allowances for Returns, Price Protection, Doubtful Accounts, and Inventory Obsolescence

- Software Development Costs and Intellectual Property Licenses
- Accounting for Income Taxes
- Fair Value Estimates
- Business Combinations
- Goodwill and Intangible Assets — Impairment Assessments
- Stock-Based Compensation

During the six months ended June 30, 2009, there were no significant changes in our critical accounting policies and estimates. You should refer to Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2008 for a more complete discussion of our critical accounting policies and estimates.

Recently Issued Accounting Pronouncements

On April 9, 2009, the Financial Accounting Standards Board issued three final Staff Positions (“FSPs”) intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities.

FSP FAS 157-4, “Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly,” provides guidance on how to determine the fair value of assets and liabilities in an environment where the volume and level of activity for the asset or liability have significantly decreased and re-emphasizes that the objective of a fair value measurement remains an exit price.

FSP FAS 107-1 and APB 28-1, “Interim Disclosures about Fair Value of Financial Instruments,” requires companies to disclose the fair value of financial instruments within interim financial statements, adding to the current requirement to provide those disclosures annually.

FSP FAS 115-2 and FAS 124-2, “Recognition and Presentation of Other-Than-Temporary Impairments,” modifies the requirements for recognizing other-than-temporary-impairment on debt securities and significantly changes the impairment model for such securities. Under FSP FAS 115-2 and 124-2, a security is considered to be other-than-temporarily impaired if the present value of cash flows expected to be collected are less than the security’s amortized cost basis (the

[Table of Contents](#)

difference being defined as the credit loss) or if the fair value of the security is less than the security’s amortized cost basis and the investor intends, or more-likely-than-not will be required, to sell the security before recovery of the security’s amortized cost basis. If an other-than-temporary impairment exists, the charge to earnings is limited to the amount of credit loss if the investor does not intend to sell the security, and it is more-likely-than-not that it will not be required to sell the security, before recovery of the security’s amortized cost basis. Any remaining difference between fair value and amortized cost is recognized in other comprehensive income, net of applicable taxes. Otherwise, the entire difference between fair value and amortized cost is charged to earnings. The FSP also modifies the presentation of other-than-temporary impairment losses and increases related disclosure requirements.

The FSPs are effective for interim and annual periods ending after June 15, 2009 and the adoption of these standards did not have a material impact on our results of operations or financial position.

In June 2009, the FASB issued SFAS No. 167, “Amendments to FASB Interpretation No. 46(R)” (“SFAS No. 167”). SFAS No. 167 amends the evaluation criteria to identify the primary beneficiary of a variable interest entity provided by FASB Interpretation No. 46(R), “Consolidation of Variable Interest Entities—An Interpretation of ARB No. 51.” Additionally, SFAS No. 167 requires ongoing reassessments of whether an enterprise is the primary beneficiary of the variable interest entity. We are currently evaluating the impact from the adoption of SFAS No. 167 on our consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165, “Subsequent Events” (“SFAS No. 165”). SFAS No. 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the financial statements are issued or are available to be issued. We adopted SFAS No. 165 in the second quarter of 2009. The adoption of SFAS No. 165 did not significantly impact our reporting of subsequent events either through recognition or disclosure.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the potential loss arising from fluctuations in market rates and prices. Our market risk exposures primarily include fluctuations in interest rates, foreign currency exchange rates and market prices.

Interest Rate Risk

Our exposure to market rate risk for changes in interest rates relates primarily to our investment portfolio. We do not use derivative financial instruments to manage interest rate risk in our investment portfolio. Our investment portfolio consists primarily of debt instruments with high credit quality and relatively short average maturities and money market funds that invest in such securities. Because short-term securities mature relatively quickly and must be reinvested at the then-current market rates, interest income on a portfolio consisting of cash, cash equivalents, or short-term securities is more subject to market fluctuations than a portfolio of longer term securities. Conversely, the fair value of such a portfolio is less sensitive to market fluctuations than a portfolio of longer term securities. At June 30, 2009, our \$2,728 million of cash and cash equivalents were comprised primarily of money market funds. At June 30, 2009, our \$102 million of short-term investments included \$3 million of mortgage-backed securities, \$57 million of auction rate securities classified as trading and \$42 million restricted cash. We have \$23 million in auction rate securities at fair value classified as long-term investments at June 30, 2009. Most of our investment portfolio is invested in short-term or variable rate securities. Accordingly, we believe that a sharp change in interest rates would not have a material effect on the value of our short-term investment portfolio.

Foreign Currency Exchange Rate Risk

We transact business in many different foreign currencies and may be exposed to financial market risk resulting from fluctuations in foreign currency exchange rates. Currency volatility is monitored frequently throughout the year. We enter into currency forward contracts and swaps with Vivendi, generally

with maturities of twelve months or less, to mitigate our risk associated with our exposures, which are comprised of foreign currency denominated financial assets and liabilities (e.g. intercompany receivables and payables) and earnings. We expect to continue to use economic hedge programs in the future to reduce financial market risks if it is determined that such hedging activities are appropriate to reduce risk. We do not hold or purchase any foreign currency contracts for trading or speculative purposes. All foreign currency hedging transactions are backed, in amount and by maturity, by an identified economic underlying item.

The gross notional amount of outstanding foreign exchange swaps was \$320 million at June 30, 2009. The notional amounts of outstanding forward foreign exchange contracts and foreign exchange swaps were \$126 million and \$118 million, respectively, at December 31, 2008. A pre-tax net unrealized loss of \$2 million and a pre-tax net unrealized loss of less than

[Table of Contents](#)

\$1 million for the three months ended June 30, 2009 and 2008, respectively, resulted from the foreign exchange contracts and swaps with Vivendi and were recognized in the Condensed Consolidated Statements of Operations. A pre-tax net unrealized gain of less than \$1 million and a pre-tax net unrealized loss of \$1 million for the six months ended June 30, 2009 and 2008, respectively, resulted from the foreign exchange contracts and swaps with Vivendi and were recognized in the Condensed Consolidated Statements of Operations.

Item 4. Controls and Procedures

Controls and Procedures

1) Definition and Limitations of Disclosure Controls and Procedures.

Our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended (the "Exchange Act") are designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosures. A control system, no matter how well designed and operated, can provide only reasonable assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports. Inherent limitations to any system of disclosure controls and procedures include, but are not limited to, the possibility of human error and the circumvention or overriding of such controls by one or more persons. In addition, we have designed our system of controls based on certain assumptions, which we believe are reasonable, about the likelihood of future events, and our system of controls may therefore not achieve its desired objectives under all possible future events.

2) Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures at June 30, 2009, the end of the period covered by this report. Based on this controls evaluation, the principal executive officer and principal financial officer concluded that, at June 30, 2009, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized, and reported on a timely basis, and (ii) accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosures.

3) Changes in Internal Control Over Financial Reporting.

There have not been any changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The discussion in Note 16 to the Condensed Consolidated Financial Statements regarding legal proceedings is incorporated herein by reference.

Item 1A. Risk Factors

Various risk factors associated with our business are included in Part I, Item 1A, "Risk Factors," of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008. In addition, the Company notes the following risk:

[Table of Contents](#)

We can not be certain when the transitioning of World of Warcraft in China to Blizzard's new licensee will be completed.

Our new licensee for World of Warcraft in China will not be able to begin offering the game in China on a paid basis until we obtain all required regulatory approvals, and we do not know when that will happen. World of Warcraft was unavailable to players in mainland China from June 7, 2009 (local), the date on which our prior license arrangements expired, until July 30, 2009 (local), when our new licensee began making the game available to our previous players in China in a test format without charge. If regulatory approvals are not granted in a timely fashion, Blizzard and its operator in China may make the game unavailable until all regulatory approvals are obtained. Having World of Warcraft unavailable for play for a prolonged period may have a negative effect on Blizzard's reputation and subscriber base in China, and having it unavailable or available only on an unpaid basis will result in lost revenues and net income. Further, efforts relating to the transition may be distracting to Blizzard Entertainment's management and other employees.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Repurchase of Equity Securities

The following table provides the number of shares repurchased and average price paid per share during the three months ended June 30, 2009, and the approximate dollar value of shares that may yet be purchased under our \$1 billion stock repurchase program at June 30, 2009 (amounts in millions, except number of shares and per share data).

Period	Total number of shares repurchased (1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plan
April 1, 2009—April 30, 2009	—	\$ —	—	\$ 561
May 1, 2009—May 31, 2009	10,438,168	11.34	10,438,168	443
June 1, 2009—June 30, 2009	8,933,079	12.45	8,933,079	332
Total	19,371,247	\$ 11.85	19,371,247	

(1) All purchases were made pursuant to a stock repurchase program, announced on November 5, 2008, authorized by our Board of Directors pursuant to which we may repurchase up to \$1 billion of our common stock from time to time on the open market or in private transactions, including structured or accelerated transactions. We will determine the timing and amount of repurchases based on our evaluation of market conditions and other factors. We may suspend or discontinue the stock repurchase program at any time.

In addition to the above repurchases, we had agreed to repurchase 2,026,183 shares at an average price per share of \$12.69 that were unsettled at June 30, 2009.

On July 31, 2009, our Board of Directors authorized an increase of \$250 million to the stock repurchase program bringing the total authorization to \$1.25 billion.

Item 4. Submission of Matters to a Vote of Security Holders

Item 5. Other Information

In July 2009, our Board of Directors adopted a procedure to solicit from our stockholders potential candidates to be nominated for election to our Board of Directors. Under this procedure, the Nominating and Corporate Governance Committee of our Board of Directors will, on an annual basis and in advance of our annual meeting of stockholders, solicit from each stockholder who holds more than one percent of our stock (and has held at least that amount of our stock for a minimum of nine months) recommendations of up to two candidates for nomination. Stockholders will be under no obligation to submit

names of candidates. If such stockholders recommend any candidates for nomination under this procedure, the Nominating and Corporate Governance Committee will consider the qualifications of the candidates based on an objective set of criteria established by the committee and will, in the exercise of its business judgment and subject to its fiduciary duties, recommend to our Board of Directors (or the Independent Nominating Committee of our Board of Directors for so long as our By-Laws provide for the existence of this subcommittee) at least one candidate from among all candidates considered. Our Board of Directors (or the Independent Nominating Committee, as applicable) will retain full authority, subject to its business judgment and fiduciary duties, to nominate any candidate to stand for election to our Board of Directors.

Subject to the terms of the Plan, the Committee may amend the terms of the Award prospectively or retroactively; however, no such amendment may materially and adversely affect the rights of the Holder taken as a whole without the Holder's consent. Without intending to limit the generality or effect of the foregoing, the Committee may amend the terms of the Award (i) in recognition of unusual or nonrecurring events (including, without limitation, events described in

A-5

Section 8 hereof) affecting the Company or any of its subsidiaries or affiliates or the financial statements of the Company or any of its subsidiaries or affiliates, (ii) in response to changes in applicable laws, regulations or accounting principles and interpretations thereof, or (iii) to prevent the Award from becoming subject to Section 409A.

8. Adjustments. Notwithstanding anything to the contrary contained herein, pursuant to Section 12 of the Plan, the Committee will make or provide for such adjustments to the Award as are equitably required to prevent dilution or enlargement of the rights of the Holder that would otherwise result from (a) any stock dividend, extraordinary dividend, stock split, combination of shares, recapitalization or other change in the capital structure of the Company, (b) any change of control, merger, consolidation, spin-off, split-off, spin-out, split-up, reorganization, partial or complete liquidation or other distribution of assets, or issuance of rights or warrants to purchase securities, or (c) any other corporate transaction or event having an effect similar to any of the foregoing. Moreover, in the event of any such transaction or event, the Committee, in its discretion, may provide in substitution for the Award such alternative consideration (including, without limitation, cash or other equity awards), if any, as it may determine to be equitable in the circumstances and may require in connection therewith the surrender of the Award.

9. Registration and Listing. Notwithstanding anything to the contrary contained herein, the Stock Option may not be exercised, and the Stock Option and Shares purchasable upon exercise of the Stock Option may not be purchased, sold, assigned, transferred, pledged, hypothecated or otherwise disposed of or encumbered in any way, unless such transaction is in compliance with (a) the Securities Act of 1933, as amended, or any comparable federal

securities law, and all applicable state securities laws, (b) the requirements of any securities exchange, securities association, market system or quotation system on which securities of the Company of the same class as the Shares are then traded or quoted, (c) any restrictions on transfer imposed by the Company's certificate of incorporation or bylaws, and (d) any policy or procedure the Company has adopted with respect to the trading of its securities, in each case as in effect on the date of the intended transaction. The Company is under no obligation to register, qualify or list, or maintain the registration, qualification or listing of, the Stock Option or Shares with the SEC, any state securities commission or any securities exchange, securities association, market system or quotation system to effect such compliance. The Holder shall make such representations and furnish such information as may be appropriate to permit the Company, in light of the then existence or non-existence of an effective registration statement under the Securities Act of 1933, as amended, relating to the Stock Option or Shares, to issue or transfer the Stock Option or Shares in compliance with the provisions of that or any comparable federal securities law and all applicable state securities laws. The Company shall have the right, but not the obligation, to register the issuance or resale of the Stock Option or Shares under the Securities Act of 1933, as amended, or any comparable federal securities law or applicable state securities law.

10. Transferability. provided further that the Holder will remain bound by the terms and conditions of the Plan, the Grant Notice and these Award Terms.

11. Employment Violation. In the event of an Employment Violation, the Company shall have the right to require (i) the termination and cancellation of the Stock Option, whether vested or unvested, and (ii) payment by the Holder to the Company of the Recapture Amount with respect to such Employment Violation; provided, however, that, in lieu of payment by the Holder to the Company of the Recapture Amount, the Holder, in his or her discretion, may tender to the Company the Shares acquired upon exercise of the Stock Option during the Look-back Period with respect to such Employment Violation and the Holder shall not be entitled to receive any consideration from the Company in exchange therefor. Any such termination of the Stock Option and payment of the Recapture Amount, as the case may be, shall be in addition to, and not in lieu of, any other right or remedy available to the Company arising out of or in connection with such Employment Violation, including, without limitation, the right to terminate the Holder's employment if not already terminated and to seek injunctive relief and additional monetary damages.

(b) The Award is subject to the terms and conditions of the Term Sheet, and any Company policies or procedures adopted in connection with the Company's implementation of the Term Sheet, including, without limitation, any policy requiring or permitting the Company to recover any gains realized by the Holder in connection with the Award.

13. Section 409A. As the Exercise Price is equal to the fair market value of a Share on the Date of Grant, payments contemplated with respect to the Award are intended to be exempt from Section 409A, and all provisions of the Plan, the Grant Notice and these Award Terms shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes or penalties under Section 409A. Notwithstanding the foregoing, (i) nothing in the Plan, the Grant Notice and these Award Terms shall guarantee that the Award is not subject to taxes or penalties under Section 409A and (ii) if any provision of the Plan, the Grant Notice or these Award Terms would, in the reasonable, good faith judgment of the Company, result or likely result in the imposition on the Holder or any other person of taxes, interest or penalties under Section 409A, the Committee may, in its sole discretion, modify the terms of the Plan, the Grant Notice or these Award Terms, without the consent of the Holder, in the manner that the Committee may reasonably and in good faith determine to be necessary or advisable to avoid the imposition of such taxes, interest or penalties; provided, however, that this Section 13 does not create an obligation on the part of the Committee or the Company to make any such modification.

9. Committee Discretion. Except as may otherwise be provided in the Plan, the Committee shall have sole discretion to (a) interpret any provision of the Plan, the Grant Notice and these Award Terms, (b) make any determinations necessary or advisable for the administration of the Plan and the Award, and (c) waive any conditions or rights of the Company under the Award, the Grant Notice or these Award Terms. Without intending to limit the generality or effect of the foregoing, the Committee may amend the terms of the Award (i) in recognition of unusual or nonrecurring events (including, without limitation, events described in Section 10 hereof) affecting the Company or any of its subsidiaries or affiliates or the financial statements of the Company or any of its subsidiaries or affiliates, (ii) in response to changes in applicable laws, regulations or accounting principles and interpretations thereof, or (iii) to prevent the Award from becoming subject to Section 409A.

10. Adjustments. Notwithstanding anything to the contrary contained herein, pursuant to Section 13 of the Plan, the Committee will make or provide for such adjustments to the Award as are equitably required to prevent dilution or enlargement of the rights of Grantee that would otherwise result from (a) any stock dividend, extraordinary dividend, stock split, combination of shares, recapitalization or other change in the capital structure of the Company, (b) any change of control, merger, consolidation, spin-off, split-off, spin-out, split-up, reorganization, partial or complete liquidation or other distribution of assets, or issuance of rights or warrants to purchase securities, or (c) any other corporate transaction or event having an effect similar to any of the foregoing. 12. Section 409A. Payments contemplated with respect to the Award are intended to be exempt from Section 409A, and all provisions of the Plan, the Grant Notice and these Award Terms shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes or penalties under Section 409A. 13. Registration and Listing. Notwithstanding anything to the contrary contained herein, the Company shall not be obligated to issue or transfer any Restricted Shares or Vested Shares, and no Restricted Shares or Vested Shares may be sold, assigned, transferred, pledged, hypothecated or otherwise disposed of or encumbered in any way, unless such transaction is in compliance with (a) the Securities Act of 1933, as amended, or any comparable federal securities law, and all applicable state securities laws, (b) the requirements of any securities exchange, securities association, market system or quotation system on which securities of the Company of the same class as the securities subject to the Award are then traded or quoted, (c) any restrictions on

transfer imposed by the Company's certificate of incorporation or bylaws, and (d) any policy or procedure the Company has adopted with respect to the trading of its securities, in each case as in effect on the date of the intended transaction. The Company is under no obligation to register, qualify or list, or maintain the registration, qualification or listing of, Restricted Shares or Vested Shares with the SEC, any state securities commission or any securities exchange, securities association, market system or quotation system to effect such compliance. Grantee shall make such representations and furnish such information as may be appropriate to permit the Company, in light of the then existence or non-existence of an effective registration statement under the Securities Act of 1933, as amended, relating to Restricted Shares or Vested Shares, to issue or transfer Restricted Shares or Vested Shares in compliance with the provisions of that or any comparable federal securities law and all applicable state securities laws. The Company shall have the right, but not the obligation, to register the issuance or transfer of Restricted Shares or Vested Shares or resale of Restricted Shares or Vested Shares under the Securities Act of 1933, as amended, or any comparable federal securities law or applicable state securities law.

A-6

14. Transferability. Notwithstanding the Restrictions, with the Company's consent, Grantee may transfer Restricted Shares for estate planning purposes or pursuant to a domestic relations order; provided, however, that any transferee shall be bound by all of the terms and conditions of the Plan, the Grant Notice and these Award Terms and shall execute an agreement in form and substance satisfactory to the Company in connection with such transfer; and provided, further that Grantee will remain bound by the terms and conditions of the Plan, the Grant Notice and these Award Terms.

Any such forfeiture of Restricted Shares and payment of the Recapture Amount, as the case may be, shall be in addition to, and not in lieu of, any other right or remedy available to the Company arising out of or in connection with such Employment Violation, including, without limitation, the right to terminate Grantee's employment if not already terminated and to seek injunctive relief and additional monetary damages.

16. Legends.

A-7

ACT OF 1933, AS AMENDED (THE "ACT"), OR PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE ACT."

17. No Right to Continued Employment. Nothing contained in the Grant Notice or these Award Terms shall be construed to confer upon Grantee any right to be continued in the employ of the Company or any of its subsidiaries or affiliates or derogate from any right of the Company or any of its subsidiaries or affiliates to retire, request the resignation of, or discharge Grantee at any time, with or without cause.

18. Severability. In the event that one or more of the provisions of these Award Terms shall be invalidated for any reason by a court of competent jurisdiction, any provision so invalidated shall be deemed to be separable from the other provisions hereof, and the remaining provisions hereof shall continue to be valid and fully enforceable.

19. Governing Law. To the extent that federal law does not otherwise control, the validity, interpretation, performance and enforcement of the Grant Notice and these Award Terms shall be governed by the laws of the State of Delaware, without giving effect to principles of conflicts of laws thereof.

20. Successors and Assigns. The provisions of the Grant Notice and these Award Terms shall be binding upon and inure to the benefit of the Company, its successors and assigns, and Grantee and, to the extent applicable, Grantee's permitted assigns under Section 14 hereof and Grantee's estate or beneficiary(ies) as determined by will or the laws of descent and distribution.

Subject to the terms of the Plan, the Committee may amend the terms of the Award prospectively or retroactively; however, no such amendment may materially and adversely affect the rights of Grantee taken as a whole without Grantee’s consent. Without intending to limit the generality or effect of the foregoing, the Committee may amend

the terms of the Award (i) in recognition of unusual or nonrecurring events (including, without limitation, events described in Section 10 hereof) affecting the Company or any of its subsidiaries or affiliates or the financial statements of the Company or any of its subsidiaries or affiliates, (ii) in response to changes in applicable laws, regulations or accounting principles and interpretations thereof, or (iii) to prevent the Award from becoming subject to Section 409A.

(b) The Award is subject to the terms and conditions of the Term Sheet, and any Company policies or procedures adopted in connection with the Company's implementation of the Term Sheet, including, without limitation, any policy requiring or permitting the Company to recover any gains realized by Grantee in connection with the Award.

12. Section 409A. Payments contemplated with respect to the Award are intended to be exempt from Section 409A, and all provisions of the Plan, the Grant Notice and these Award Terms shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes or penalties under Section 409A. Notwithstanding the foregoing, (i) nothing in the Plan, the Grant Notice and these Award Terms shall guarantee that the Award is not subject to taxes or penalties under Section 409A and (ii) if any provision of the Plan, the Grant Notice or these Award Terms would, in the reasonable, good faith judgment of the Company, result or likely result in the imposition on Grantee or any other person of taxes, interest or penalties under Section 409A, the Committee may, in its sole discretion, modify the terms of the Plan, the Grant Notice or these Award Terms, without the consent of Grantee, in the manner that the Committee may reasonably and in good faith determine to be necessary or advisable to avoid the imposition of such taxes, interest or penalties; provided, however, that this Section 12 does not create an obligation on the part of the Committee or the Company to make any such modification.

The Company is under no obligation to register, qualify or list, or maintain the registration, qualification or listing of, Performance Shares or Vested Shares with the SEC, any state securities commission or any securities exchange, securities association, market system or quotation system to effect such compliance. Grantee shall make such representations and furnish such information as may be appropriate to permit the Company, in light of the then existence or non-existence of an effective registration statement under the Securities Act of 1933, as amended, relating to Performance Shares or Vested Shares, to issue or transfer Performance Shares or Vested Shares in compliance with the provisions of that or any comparable federal securities law and all applicable state securities laws. The Company shall have the right, but not the obligation, to register the issuance or transfer of Performance Shares or Vested Shares or resale of Performance Shares or Vested Shares under the Securities Act of 1933, as amended, or any comparable federal securities law or applicable state securities law.

14. Transferability. Notwithstanding the Restrictions, with the Company's consent, Grantee may transfer Performance Shares for estate planning purposes or pursuant to a domestic relations order; provided, however, that any transferee shall be bound by all of the terms and conditions of the Plan, the Grant Notice and these Award Terms and shall execute an agreement in form and substance satisfactory to the Company in connection with such transfer; and provided, further that Grantee will remain bound by the terms and conditions of the Plan, the Grant Notice and these Award Terms.

In the event of an Employment Violation, the Company shall have the right to require (a) the forfeiture by Grantee to the Company of any Performance Shares and (b) payment by Grantee to the Company of the Recapture Amount with respect to such Employment Violation; provided, however, that, in lieu of payment by Grantee to the Company of the Recapture Amount, Grantee, in his or her discretion, may tender to the Company the Vested Shares acquired during the Look-back Period with respect to such Employment Violation and Grantee shall not be entitled to receive any consideration from the Company in exchange therefor. Any such forfeiture of Performance Shares and payment of the Recapture Amount, as the case may be, shall be in addition to, and not in lieu of, any other right or remedy available to the Company arising out of or in connection with such Employment Violation, including, without limitation, the right to terminate Grantee's employment if not already terminated and to seek injunctive relief and additional monetary damages.

17. No Right to Continued Employment. Nothing contained in the Grant Notice or these Award Terms shall be construed to confer upon Grantee any right to be continued in the employ of the Company or any of its subsidiaries or affiliates or derogate from any right of the Company or any of its subsidiaries or affiliates to retire, request the resignation of, or discharge Grantee at any time, with or without cause.

18. Severability. In the event that one or more of the provisions of these Award Terms shall be invalidated for any reason by a court of competent jurisdiction, any provision so invalidated shall be deemed to be separable from the other provisions hereof, and the remaining provisions hereof shall continue to be valid and fully enforceable.

19. Governing Law. To the extent that federal law does not otherwise control, the validity, interpretation, performance and enforcement of the Grant Notice and these Award Terms shall be governed by the laws of the State of Delaware, without giving effect to principles of conflicts of laws thereof.

20. Successors and Assigns. The provisions of the Grant Notice and these Award Terms shall be binding upon and inure to the benefit of the Company, its successors and assigns, and Grantee and, to the extent applicable, Grantee’s permitted assigns under Section 14 hereof and Grantee’s estate or beneficiary(ies) as determined by will or the laws of descent and distribution.

Director Stock Ownership Guidelines

- For purposes of determining compliance with the share ownership guidelines, the aggregate value of the shares owned by the director is calculated as of January 2nd of each applicable year (or if such date is not a trading date, the next trading date) based on the higher of:
 - the closing price of the Company's common stock as quoted on the NASDAQ National Market on that day; and
 - the closing price of the Company's common stock as quoted on the NASDAQ National Market on the date of grant (or if such date is not a trading date, the next trading date), for any shares awarded to the director by the Company, and the actual cost to the director, for any other shares.
- Directors are subject to these guidelines for as long as they continue to serve on the Board.

AMENDMENT #1 TO EMPLOYMENT AGREEMENT

Ron Doornink

This Amendment #2 to Employment Agreement (this "**Amendment #1**") is entered into on June 9, 2009, by and between Ron Doornink ("**You or Employee**") and Activision Publishing, Inc. ("**Employer**"). All capitalized terms shall have the same meaning set forth in the Employment Agreement (as defined below).

RECITALS:

Employee and Employer entered into an Employment Agreement dated as of July 8, 2008, as amended (the "**Agreement**").

The original Expiration Date of the Agreement as set forth therein is June 30, 2009.

For consideration described below, the sufficiency and adequacy of which is hereby acknowledged, Employer and Employee desire to extend the Expiration Date of the Agreement and otherwise amend the Agreement in certain respects as set forth herein below.

All capitalized terms set forth in the Agreement shall retain the meaning ascribed to them therein except that the term "Activision" throughout the Agreement shall mean Activision Blizzard, Inc. a Delaware corporation and a company that owns 100% ownership of Employer ("Activision-Blizzard")

AGREEMENT:

The parties hereby agree to amend the terms of the Employment Agreement as follows:

Term: The parties acknowledge that the Agreement shall be automatically extended by a term of one (1) year as set forth in Paragraph 1(a). Accordingly, the Agreement shall end on June 30, 2011.

Compensation: Your Base Salary shall remain \$250,000.

In addition, subject to the approval of the Compensation Committee, you will also receive a new restricted stock grant (the "New Grant") of **10,000** shares of Activision-Blizzard's common stock (the "New Restricted Shares"), which Restricted Shares will vest ratably every three months over the one year period from the date of the grants, subject to your remaining employed through each vesting date, and will settle during the calendar year in which vesting occurs. Employee acknowledges that the grant of the New Restricted Shares is expressly conditioned upon approval by the Compensation Committee, and that the Compensation Committee has discretion to approve or disapprove the grant of the New Restricted Shares and/or to determine and make modifications to the terms of the New Restricted Shares. The New Restricted Shares shall be subject to all terms of the equity incentive plan pursuant to which it is granted and Activision Blizzard's standard forms of award agreement.

1

Except as specifically set forth in this Amendment #1, the Agreement shall remain unmodified and in full force and effect. If any term or provision of the Employment Agreement is contradictory to, or inconsistent with, any term or provision of this Amendment #1, then the terms and provisions of this Amendment #1 shall in all events control.
