affords us, especially with our powerful owned franchises, our strong commercial capabilities, our direct digital connections to hundreds of millions of players, and our extraordinarily talented employees."

### **Operating Metrics**

For the year ended December 31, 2018, Activision Blizzard's net bookings<sup>B</sup> were a record \$7.26 billion, as compared with \$7.16 billion for 2017, below our prior outlook. Net bookings<sup>B</sup> from digital channels were a record \$5.72 billion, as compared with \$5.43 billion for 2017, and in-game net bookings<sup>B</sup> were a record of \$4.2 billion.

For the quarter ended December 31, 2018, Activision Blizzard's net bookings<sup>B</sup> were a record \$2.84 billion, compared with \$2.64 billion for the fourth quarter of 2017, below our prior outlook. Net bookings<sup>B</sup> from digital channels were a record \$1.88 billion, as compared with \$1.62 billion for the fourth quarter of 2017, and in-game net bookings<sup>B</sup> were a record of \$1.2 billion.

### **Selected Business Highlights**

#### Activision

- Activision had 53 million Monthly Active Users (MAUs)<sup>c</sup> in the quarter, growing double-digits quarter-over-quarter. Fourth quarter segment revenues grew 6% year-over-year to \$1.41 billion and operating income increased 14% year-over-year to \$723 million.
- Call of Duty® was again the number-one selling console franchise worldwide for the year, a franchise feat accomplished for nine of the last 10 years.¹ In its launch quarter, Call of Duty: Black Ops 4 sold-through more units than Call of Duty: Black Ops III, with PC units more than tripling. Full-game downloads were over 40% of Call of Duty: Black Ops 4 console sell-through, versus approximately 30% for the prior release, Call of Duty: WWII.
- The successful launch of *Spyro*® *Reignited Trilogy* in the fourth quarter and the ongoing contribution of *Crash Bandicoot*<sup>TM</sup> *N. Sane Trilogy*, which has sold-in over 10 million units since its 2017 release, highlight the enduring nature of Activision's classic franchises.

#### Blizzard

- · Blizzard had 35 million MAUs<sup>C</sup> in the quarter, as *Overwatch*® and *Hearthstone*® saw sequential stability and *World of Warcraft*® saw expected declines post-expansion-launch. Fourth quarter segment revenues grew 15% year-over-year to \$686 million and operating income increased 51% year-over-year to \$241 million.
- Building on an 11-year partnership, Blizzard extended its joint venture with NetEase to publish its games in China through January 2023.

### King

· King had 268 million MAUs<sup>C</sup> in the quarter, growing sequentially, driven by the successful launch of *Candy Crush Friends Saga<sup>TM</sup>*. Fourth quarter segment revenues grew 5% year-over-year to \$543 million and operating income increased 28% year-over-year to \$207 million.

- · Candy Crush Friends Saga saw strong monetization and retention trends, contributing incremental growth for the Candy Crush<sup>TM</sup> franchise, which grew net bookings<sup>B</sup> and MAUs<sup>C</sup> year-over-year and quarter-over-quarter. This quarter, King had two of the top-10 highest-grossing titles in the U.S. mobile app stores for twenty-one quarters in a row, with Candy Crush Saga<sup>TM</sup> at #1 again.<sup>2</sup>
- Advertising in the King network was again profitable with net bookings<sup>B</sup> growing over 50% sequentially.

### **Company Outlook**

In 2019, the company will increase development investment in its biggest franchises, enabling teams to accelerate the pace and quality of content for their communities and supporting a number of new product initiatives. The number of developers working on *Call of Duty*, *Candy Crush*, *Overwatch*, *Warcraft*\*, *Hearthstone* and *Diablo*\* in aggregate will increase approximately 20% over the course of 2019. The company will fund this greater investment by de-prioritizing initiatives that are not meeting expectations and reducing certain non-development and administrative-related costs across the business. The company is also integrating its global and regional sales and go-to-market, partnerships, and sponsorships capabilities. As part of these restructuring actions, the company expects to incur a GAAP-only pre-tax charge of approximately \$150 million, the majority of which is expected to be incurred this year.

Net bookings<sup>B</sup> are expected to be \$6.30 billion for 2019 and \$1.18 billion for the first quarter of 2019.

### Currency Assumptions for 2019 Outlook:

- \$1.13 USD/Euro for current outlook (vs. average of \$1.12 for 2018, \$1.12 for 2017, and \$1.11 for 2016); and
- \$1.26 USD/British Pound Sterling for current outlook (vs. average of \$1.30 for 2018, \$1.30 for 2017 and \$1.36 for 2016).
- · Note: Our financial guidance includes the forecasted impact of our FX hedging program.

### **Capital Allocation**

The Board of Directors declared a cash dividend of \$0.37 per common share, payable on May 9, 2019 to shareholders of record at the close of business on March 28, 2019, which represents a 9% increase from 2018. Additionally, the Board of Directors authorized a new two-year stock repurchase program under which the company is authorized to repurchase up to \$1.5 billion of its outstanding common stock during the period.

### **Conference Call**

Today at 4:30 p.m. EDT, Activision Blizzard's management will host a conference call and webcast to discuss the company's results for the quarter ended December 31, 2018 and management's outlook for the remainder of the calendar year. The company welcomes all members of the financial and media communities and other interested parties to visit https://investor.activision.com to listen to the conference call via live Webcast or to listen to the call live by dialing into 866-548-4713 in the U.S. with passcode 9678578. A replay of the call will also be available after the call's conclusion and archived for one year at https://investor.activision.com/events.cfm.

### **About Activision Blizzard**

Activision Blizzard, Inc., a member of the Fortune 500 and S&P 500, is the world's most successful standalone interactive entertainment company. We delight hundreds of millions of monthly active users around the world through franchises including Activision's Call of Duty®, Spyro<sup>TM</sup>, and Crash<sup>TM</sup>, Blizzard Entertainment's World of Warcraft®, Overwatch®, Hearthstone®, Diablo®, StarCraft®, and Heroes of the Storm®, and King's Candy Crush<sup>TM</sup>, Bubble Witch<sup>TM</sup>, and Farm Heroes<sup>TM</sup>. The company is one of the Fortune "100 Best Companies To Work For®." Headquartered in Santa Monica, California, Activision Blizzard has operations throughout the world. More information about Activision Blizzard and its products can be found on the company's website, www.activisionblizzard.com.

- <sup>1</sup> The NPD Group, GfK, GSD and internal estimates, based on dollar sales of front line games.
- <sup>2</sup> U.S. ranking for Apple App Store and Google Play Store combined, per App Annie Intelligence for fourth quarter of 2018.
- A Net effect of accounting treatment from revenue deferrals on certain of our online-enabled products. Since certain of our games are hosted online or include significant online functionality that represents a separate performance obligation, we defer the transaction price allocable to the online functionality from the sale of these games and recognize the attributable revenues over the relevant estimated service periods, which are generally less than a year. The related cost of revenues is deferred and recognized as an expense as the related revenues are recognized. Impact from changes in deferrals refers to the net effect from revenue deferrals accounting treatment for the purposes of revenues, along with, for the purposes of EPS, the related cost of revenues deferrals treatment and the related tax impacts. Internally, management excludes the impact of this change in deferred revenues and related cost of revenues when evaluating the company's operating performance, when planning, forecasting and analyzing future periods, and when assessing the performance of its management team. Management believes this is appropriate because doing so enables an analysis of performance based on the timing of actual transactions with our customers. In addition, management believes excluding the change in deferred revenues and the related cost of revenues provides a much more timely indication of trends in our operating results.
- <sup>B</sup> Net bookings is an operating metric that is defined as the net amount of products and services sold digitally or sold-in physically in the period, and includes license fees, merchandise, and publisher incentives, among others, and is equal to net revenues excluding the impact from deferrals.
- <sup>C</sup> Monthly Active User ("MAU") Definition: We monitor MAUs as a key measure of the overall size of our user base. MAUs are the number of individuals who accessed a particular game in a given month. We calculate average MAUs in a period by adding the total number of MAUs in each of the months in a given period and dividing that total by the number of months in the period. An individual who accesses two of our games would be counted as two users. In addition, due to technical limitations, for Activision and King, an individual who accesses the same game on two platforms or devices in the relevant period would be counted as two users. For Blizzard, an individual who accesses the same game on two platforms or devices in the relevant period would generally be counted as a single user.

Non-GAAP Financial Measures: As a supplement to our financial measures presented in accordance with Generally Accepted Accounting Principles ("GAAP"), Activision Blizzard presents certain non-GAAP measures of financial performance. These non-GAAP financial measures are not intended to be considered in isolation from, as a substitute for, or as more important than, the financial information prepared and presented in accordance with GAAP. In addition, these non-GAAP measures have limitations in that they do not reflect all of the items associated with the company's results of operations as determined in accordance with GAAP.

Activision Blizzard provides net income (loss), earnings (loss) per share, and operating margin data and guidance both including (in accordance with GAAP) and excluding (non-GAAP) certain items. When relevant, the company also provides constant FX information to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations. In addition, Activision Blizzard provides EBITDA (defined as GAAP net income (loss) before interest (income) expense, income taxes, depreciation, and amortization) and adjusted EBITDA (defined as non-GAAP operating margin (see non-GAAP financial measure below) before depreciation). The non-GAAP financial measures exclude the following items, as applicable in any given reporting period and our outlook:

- · expenses related to stock-based compensation;
- · the amortization of intangibles from purchase price accounting;
- fees and other expenses related to the King acquisition, including related debt financings, and refinancing of long-term debt, including penalties and the write off of unamortized discount and deferred financing costs;
- · restructuring charges;
- · other non-cash charges from reclassification of certain cumulative translation adjustments into earnings as required by GAAP;
- the income tax adjustments associated with any of the above items (tax impact on non-GAAP pre-tax income is calculated under the same accounting principles applied to the GAAP pre-tax income under ASC 740, which employs an annual effective tax rate method to the results); and
- significant discrete tax-related items, including amounts related to changes in tax laws (including the Tax Cuts and Jobs Act enacted in December 2017), amounts related to the potential or final resolution of tax positions, and other unusual or unique tax-related items and activities.

In the future, Activision Blizzard may also consider whether other items should also be excluded in calculating the non-GAAP financial measures used by the company. Management believes that the presentation of these non-GAAP financial measures provides investors with additional useful information to measure Activision Blizzard's financial and operating performance. In particular, the measures facilitate comparison of operating performance between periods and help investors to better understand the operating results of Activision Blizzard by excluding certain items that may not be indicative of the company's core business, operating results, or future outlook. Additionally, we consider quantitative and qualitative factors in assessing whether to adjust for the impact of items that may be significant or that could affect an understanding of our ongoing financial and business performance or trends. Internally, management uses these non-GAAP financial measures, along with others, in assessing the company's operating results, and measuring compliance with the requirements of the company's debt financing agreements, as well as in planning and forecasting.

Activision Blizzard's non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles, and the terms non-GAAP net income, non-GAAP earnings per share, non-GAAP operating margin, and non-GAAP or adjusted EBITDA do not have a standardized meaning. Therefore, other companies may use the same or similarly named measures, but exclude different items, which may not provide investors a comparable view of Activision Blizzard's performance in relation to other companies.

Management compensates for the limitations resulting from the exclusion of these items by considering the impact of the items separately and by considering Activision Blizzard's GAAP, as well as non-GAAP, results and outlook, and by presenting the most comparable GAAP measures directly ahead of non-GAAP measures, and by providing a reconciliation that indicates and describes the adjustments made.

Cautionary Note Regarding Forward-looking Statements: The statements contained herein that are not historical facts are forward-looking statements, including, but not limited to, statements about: (1) projections of revenues, expenses, income or loss, earnings or loss per share, cash flow or other financial items; (2) statements of our plans and objectives, including those related to releases of products and services and restructuring activities; (3) statements of future financial or operating performance, including the impact of tax items thereon; and (4) statements of assumptions underlying such statements. The company generally uses words such as "outlook," "forecast," "will," "could," "should," "would," "to be," "plan," "plans," "believes," "may," "might," "expects," "intends," "intends as," "anticipates," "estimate," "future," "positioned," "potential," "project," "remain," "scheduled," "set to," "subject to," "upcoming," and other similar expressions to help identify forward-looking statements. Forward-looking statements are subject to business and economic risks, reflect management's current expectations, estimates, and projections about our business, and are inherently uncertain and difficult to predict.

The company cautions that a number of important factors could cause Activision Blizzard's actual future results and other future circumstances to differ materially from those expressed in any forward-looking statements. Such factors include, but are not limited to: sales levels of Activision Blizzard's titles, products, and services; concentration of revenue among a small number of titles; Activision Blizzard's ability to predict consumer preferences, including interest in specific genres and modes, and preferences among platforms; the continued growth in the scope and complexity of our business, including the diversion of management time and attention to issues relating to the operations of our newly acquired or started businesses and the potential impact of our expansion into new businesses on our existing businesses; the execution of our restructuring activities; the amount of our debt and the limitations imposed by the covenants in the agreements governing our debt; counterparty risks relating to customers, licensees, licensors, and manufacturers; maintenance of relationships with key personnel, customers, financing providers, licensees, licensors, manufacturers, vendors, and third-party developers, including the ability to attract, retain, and motivate key personnel and developers that can create high-quality titles, products, and services; changing business models within the video game industry, including digital delivery of content and the increased prevalence of free-to-play games; product delays or defects; competition, including from other forms of entertainment; rapid changes in technology and industry standards; possible declines in software pricing; product returns and price protection; the identification of suitable future acquisition opportunities and potential challenges associated with geographic expansion; the seasonal and cyclical nature of the interactive entertainment market; the outcome of current or future tax disputes; litigation risks and associated costs; protection of proprietary righ

The forward-looking statements in this press release are based on information available to the company at this time and we assume no obligation to update any such forward-looking statements. Although these forward-looking statements are believed to be true when made, they may ultimately prove to be incorrect. These statements are not guarantees of our future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and may cause actual results to differ materially from current expectations.

**Operating Margin** 

Our operating segments are consistent with the manner in which our operations are reviewed and managed by our Chief Executive Officer, who is our chief operating decision maker ("CODM"). The CODM reviews segment performance exclusive of: the impact of the change in deferred revenues and related cost of revenues with respect to certain of our online-enabled games; share-based compensation expense; amortization of intangible assets as a result of purchase price accounting; fees and other expenses (including legal fees, costs, expenses and accruals) related to acquisitions, associated integration activities, and financings; certain restructuring costs; and other non-cash charges. See the following page for the reconciliation tables of segment revenues and operating income to consolidated net revenues and consolidated operating income.

Our operating segments are also consistent with our internal organization structure, the way we assess operating performance and allocate resources, and the availability of separate financial information. We do not aggregate operating segments.

- Net Revenues represents the revenue outlook for both GAAP and Non-GAAP as they are measured the same.
- Reflects the net effect from deferral of revenues and (recognition) of deferred revenues on certain of our online enabled products.
- Reflects expenses related to share-based compensation.
- Reflects amortization of intangible assets from purchase price accounting, including intangible assets from the King Acquisition.
- Reflects our planned restructuring initiatives, primarily severance and facilities costs. This aims to invest development resources on our biggest franchises, reduce certain non-development and administrative related costs, and integrate our global and regional sales and go-to-market, partnerships, and sponsorship capabilities across the business.
- Reflects the income tax impacts associated with the above items. Due to the inherent uncertainties in share price and option exercise behavior, we do not generally forecast excess tax benefits or tax shortfalls.
- Reflects the net effect from deferral of revenues and (recognition) of deferred revenues, along with related cost of revenues, on certain of our online enabled products, including the effect of taxes.

The per share adjustments and the GAAP and Non-GAAP earnings per share information are presented as calculated. Therefore, the sum of these measures, as presented, may differ due to the impact of rounding.
