

## Fear the Reaper (of Souls)

*Epic new chapter in Blizzard Entertainment's critically acclaimed Diablo® series NOW LIVE*

*Take up the blessed arms and impenetrable shield of the mighty Crusader and explore the world of Sanctuary like never before*

IRVINE, Calif.--(BUSINESS WIRE)-- The time has come for the greatest heroes of the mortal realm to answer the call to arms and join the crusade against death itself. *Diablo® III: Reaper of Souls™* is now live and ready to challenge Windows® and Mac® gamers around the world.

In *Reaper of Souls*, the five valiant heroes from *Diablo III*—Barbarian, Demon Hunter, Monk, Witch Doctor, and Wizard—are joined by a new champion: the Crusader. Clad head to toe in fortified armor, the Crusader is an unstoppable force of righteous destruction who channels the power of divine wrath to visit retribution upon his demonic quarry.

*Reaper of Souls* adds a challenging new act to *Diablo III* in which players will embark on a dark and perilous journey through terrifying landscapes; explore the legendary city of Westmarch; and slay countless minions, each hell-bent on bringing their heroic quest to a grisly end. The adventure culminates in a climactic confrontation with Malthael, the Angel of Death, whose twisted designs spell ruin for the innocent people of Sanctuary.

"Together with the new loot experience we added to the game, *Reaper of Souls* improves on *Diablo III* in countless ways," said Mike Morhaime, CEO and cofounder of Blizzard Entertainment. "Players returning to Sanctuary will find a darker, more engaging, and much more rewarding experience awaiting them."

A recent free update to *Diablo III* on Windows and Mac introduced a host of new game features, including a major revamp of the game's loot system, an expanded Paragon progression system for max-level characters, and expanded social tools in the form of Clans and Communities. With the purchase of *Reaper of Souls*, players will gain access to game-changing new features and highly replayable content, including:

- Act V: A dark and terrifying chapter sending players on a final confrontation with death itself
- The Crusader: A new playable hero—a veritable war machine made human
- Level Cap to 70: Formidable new spells and abilities that take players to new heights of power
- Adventure Mode: A new game mode that gives players the freedom to go anywhere and slay anything
- Bounties: Randomized objectives that reward players in new ways for exploring Sanctuary
- Nephalem Rifts: Fully randomized dungeons offering endless replayability and heaps of loot
- The Mystic: A powerful new artisan who provides heroes with loot-customization options

All of this new content comes with the *Reaper of Souls* Standard Edition (available in physical and digital versions), which players can purchase at a suggested retail price of \$39.99. Players also have the option to upgrade to the Digital Deluxe Edition (SRP \$59.99), which contains a wealth of in-game bonuses:
